

CRS Report for Congress

Low Income Home Energy Assistance Program (LIHEAP): Estimated Allocations

Libby Perl
Analyst in Social Legislation
Domestic Social Policy Division

Summary

The Low Income Home Energy Assistance Program (LIHEAP) is a block grant program under which the federal government gives annual grants to states, the District of Columbia, U.S. territories and commonwealths, and Indian tribal organizations to operate multi-component home energy assistance programs for needy households. This report contains two tables that show estimated LIHEAP allocations to the states. **Table 1** shows state allocations based on the amount appropriated for FY2006, the amount currently appropriated for FY2007, the amount proposed to be appropriated for FY2007 in both H.R. 1591 and S. 965, and estimated state allocations based on the amount proposed by the President for FY2008. **Table 2** shows estimated state allocations at other hypothetical appropriations increments. For detailed information on how the LIHEAP formula allocates funds to the states, see CRS Report RL33275, *Low-Income Home Energy Assistance Allocation Rates: Legislative History and Current Law*, by Julie M. Whittaker and Libby Perl. This report will be updated when proposed funding levels change.

Low Income Home Energy Assistance Program

The Low Income Home Energy Assistance Program (LIHEAP) is a block grant program under which the federal government gives annual grants to states, the District of Columbia, U.S. territories and commonwealths, and Indian tribal organizations to operate multi-component home energy assistance programs for needy households.¹ Established in 1981 by Title XXVI of P.L. 97-35, LIHEAP has been reauthorized and amended several times, most recently in 2005, when P.L. 109-58 reauthorized annual regular LIHEAP funds at \$5.1 billion per year from FY2005 to FY2007. The total LIHEAP appropriation for FY2007 was \$2.16 billion (P.L. 110-5). In FY2006, \$3.161 billion was

¹ For additional information on LIHEAP, see CRS Report RL31865, *The Low-Income Home Energy Assistance Program (LIHEAP): Program and Funding*, by Libby Perl.

appropriated for LIHEAP (P.L. 109-149 and P.L. 109-204), the largest amount ever appropriated for the program.

The LIHEAP statute provides for two types of program funding: regular funds and contingency funds. Regular funds are allotted to states according to methods prescribed by the LIHEAP statute.² The method of allotment may change based on the amount of funds appropriated by Congress. In FY2007, \$1.98 billion was allocated to regular funds, and in FY2006, \$2.48 billion of the total LIHEAP appropriation was distributed as regular funds. The second type of LIHEAP funding, called contingency funds, may be released and allotted to one or more states at the discretion of the President and the Secretary of Health and Human Services (HHS). The contingency funds may be released at any point in the fiscal year to meet additional home energy assistance needs created by a natural disaster or other emergency.³ In FY2007, Congress appropriated \$181 million for contingency funds. The amount provided for contingency funds in FY2006 was \$681 million.

FY2007 Funding and Proposed FY2008 Funding

For FY2007, Congress appropriated \$1.98 billion in LIHEAP regular funds (P.L. 110-5). Column (b) of **Table 1** shows the amount of funds allocated to each state at an appropriation of \$1.98 billion. A supplemental appropriations bill that is pending in the House, H.R. 1591, would increase FY2007 regular fund appropriations by \$200 million for a total of \$2.18 billion. Column (c) of **Table 1** shows state allocations at an appropriation of \$2.18 billion. The Senate's version of the FY2007 supplemental appropriations bill, S. 965, would add \$320 million to LIHEAP regular fund appropriations, for a total of \$2.30 billion in FY2007. Column (d) shows allotments to the states at \$2.30 billion. The President's FY2008 budget requested \$1.5 billion for regular block grant funds. Column (e) of **Table 1** shows the estimated amount of funds each state would receive at an appropriation of \$1.5 billion. Column (a) shows the amount allotted to each state in FY2006, when \$2.48 billion was appropriated for regular LIHEAP funds.

Following **Table 1**, **Table 2** shows estimated allocations to the states at various hypothetical appropriations levels. These amounts are \$1.75 billion, \$2.0 billion, \$2.25 billion, \$2.5 billion, \$2.75 billion, \$3.0 billion, \$4.0 billion, and \$5.1 billion (the amount at which the LIHEAP program was last authorized in P.L. 109-58).

² See Section 2604(a)-(d) of the Low Income Home Energy Assistance Act (Title XXVI of P.L. 97-35), as amended. The section is codified at 42 U.S.C. §8623(a)-(d) (2002).

³ Depending on how Congress appropriates them, contingency funds may remain available for distribution in more than one fiscal year or they may expire with the fiscal year for which they were appropriated.

Source: Congressional Research Service (CRS) calculations based on factors provided by the Department of Health and Human Services (HHS) in December 2005.

Note: These estimates take into account current program practice where HHS sets aside funds out of the regular LIHEAP fund appropriation for the territories, training and technical assistance, leveraging incentive grants, and the Residential Energy Assistance Challenge Option Program (REACH). This has implications for the total amount of funds going directly to the states. For example, an appropriation of \$1.98 billion is estimated to result in \$1.95 billion in regular LIHEAP funds going directly to the states, after the amounts for these set-asides are subtracted from the total appropriation.

a. The total regular fund appropriation for FY2006 was \$2.48 billion, \$1.98 of which was appropriated in P.L. 109-149, and \$500 million in P.L. 109-204. Initially, P.L. 109-149 appropriated \$2.0 billion for regular funds, but the amount was subject to a 1% across-the-board rescission, resulting in a \$1.98 billion appropriation (P.L. 109-148). In addition, both training and technical assistance and the leveraging incentive and REACH funds were reduced by 1% in column (a).

b. Congress approved a year-long continuing resolution for FY2007 (P.L. 110-5), which was enacted on February 15, 2007. The law provides that LIHEAP receive the same amount of funds for FY2007 that were appropriated for FY2006 in P.L. 109-149, as reduced by a 1% rescission (P.L. 109-148). The HHS FY2008 budget justifications for the LIHEAP program reserve \$27.225 million for leveraging incentive grants and \$297,000 for training and technical assistance.

c. Amounts for leveraging incentive grants (\$27.225 million) and training and technical assistance (\$297,000) have been removed.

d. The President's FY2008 request would set aside \$27.225 million for leveraging incentive grants and \$297,000 for training and technical assistance.
