

FEMA DRF Major Disaster Assistance: Michigan

Overview

The Disaster Relief Fund (DRF) is managed by the Federal Emergency Management Agency (FEMA) and is the primary source of funding used to provide assistance following a major disaster declaration. The authority to declare a major disaster is provided to the President under the Robert T. Stafford Emergency Relief and Disaster Assistance Act (P.L. 93-288).

The information below includes only the funding provided as a result of a major disaster declaration, not other assistance funded through the DRF. Additionally, this information does not include other federal sources of disaster assistance, such as Small Business Administration disaster loans.

FEMA administers disaster relief through regional offices around the country. Michigan is part of Region V, headquartered in Chicago, IL.

Major Disaster Declarations: FY2000-FY2013

A total of five major disaster declarations were made in the state of Michigan between FY2000 and FY2013. During that time, there were three requests for major disaster declarations that were denied. The approved declarations led to \$334 million in federal obligations from the Disaster Relief Fund. This funding does not include the assistance that was provided directly by the state, either as a cost-share for federal assistance, or through the state’s own authorities and programs. There was a high level of variation in the amount of funding obligated each year, with more than \$246 million obligated in FY2001 alone. No other year during this period had total obligations nearly this high. **Figure 1** displays the total amount obligated to Michigan each year. Michigan did not receive more than one declaration within a single fiscal year during this period.

Significant Incidents

The largest single incident in Michigan during this period was in FY2001. Every incident that led to a declaration for Michigan involved storms, floods, tornadoes, or a combination of the three.

Figure 1. DRF Obligations for Declared Major Disasters in Michigan, by Fiscal Year

Figures are in millions of dollars. The number of declarations per year is in parentheses.

Notes: Figures above reflect both actual obligations and projected obligations. Only obligations from the FEMA Disaster Relief Fund are included. Please consult the “Additional Resources” section for information on other federal assistance programs.

Types of Assistance Provided for Major Disasters

A major disaster declaration can include funding for different purposes, depending on the needs of the state. These purposes include:

- Public Assistance (PA) that is used to conduct debris removal operations, repair or replace damaged public infrastructure, and other assistance;
- Individual Assistance (IA) that provides direct aid to impacted households, and other assistance;
- Hazard Mitigation (HM) that funds resilience projects and programs, typically across the whole state; and
- FEMA administrative costs associated with each disaster declaration.

The decision to provide certain types of assistance is made at the time of the major disaster declaration. For many major disasters, all of the assistance types outlined above will be authorized. For others, some assistance types will not be included. **Figure 2** compares the amounts expended for different types of assistance that were provided to Michigan from FY2000 to FY2013.

County Impact

Since 2000, 41 counties or reservations in Michigan have received aid under a major disaster declaration. No individual county has received assistance under more than three declarations during this time.

Other Assistance Funded Through the DRF

In addition to the major disasters listed above, there are also other forms of assistance that are funded through the Disaster Relief Fund. These include both Emergency Declarations and Fire Management Assistance Grants. The assistance provided for these declarations typically involves lower obligation levels than major disaster declarations, although there is significant variation across incidents.

Emergency Declarations are often made at the time a threat is recognized and are issued to assist state, local, and tribal efforts prior to the incident.

Fire Management Assistance Grants (FMAGs) provide aid for the control, management, and mitigation of fires.

Additional Resources

There are many existing CRS products that address issues related to the Disaster Relief Fund, the disaster declaration process, and federal emergency management policy. Below is a list of several of these resources:

- CRS Report R41981, *Congressional Primer on Responding to Major Disasters and Emergencies*
- CRS Report R43519, *Natural Disasters and Hazards: CRS Experts*
- CRS Report RL34146, *FEMA's Disaster Declaration Process: A Primer*
- CRS Report R42845, *Federal Emergency Management: A Brief Introduction*
- CRS Report R43537, *FEMA's Disaster Relief Fund: Overview and Selected Issues*
- CRS Report RL33053, *Federal Stafford Act Disaster Assistance: Presidential Declarations, Eligible Activities, and Funding*

FEMA is also responsible for administering the National Flood Insurance Program (NFIP). More information on whether your community participates in this program can be found in the NFIP Community Status Book at fema.gov.
