R44596

## Summary

This fact sheet summarizes selected highlights of the military construction and military family housing portions of the FY2017 Military Construction, Veterans Affairs, and Related Agencies Appropriations Act. The act is associated with three separate bill numbers: H.R. 4974, S. 2806, and H.R. 2577.

Congressional action on FY2017 military construction appropriations legislation has been heavily influenced by the statutorily mandated discretionary spending caps established by P.L. 114-74, the Bipartisan Budget Act of 2015 (BBA). A significant issue before Congress is the extent to which Congress and the President will agree on budgetary authority that (1) exceeds the established BBA limit, and (2) is exempt under 2 U.S.C. §901 from being counted toward that limit by virtue of categorization as Overseas Contingency Operations (OCO) funds. The 2015 BBA temporarily increased statutory funding limits on defense and non-defense appropriations for FY2016 and FY2017 above those established by the Budget Control Act (BCA) of 2011 (P.L. 112-25).

New budget authority (funding not previously appropriated) for military construction and military family housing totaled \$8,171.0 million for FY2016. For FY2017, the House authorized \$7,616.5 million, and the Senate authorized \$7,866.0 million. The conference committee recommended \$7,898.0 million.

The FY2017 Military Construction, Veterans Affairs, and Related Agencies Appropriations Act originated in the House as H.R. 4974, introduced on April 15, 2016. A similar bill, S. 2806, was introduced in the Senate on April 18, 2016. On May 19, 2016, the Senate combined the versions of the Transportation, Housing and Urban Development (T-HUD), Military Construction and Veterans Affairs (MILCON/VA), and Zika Response and Preparedness appropriations bills into H.R. 2577 (a T-HUD appropriations bill for FY2016 that the House had passed in June, 2015), passed the amended bill, and sent it to the House. The House substituted its own amendment in three divisions (Division A: MILCON/VA, Division B: Zika Response Appropriations, and Division C: Zika Vector Control), removing the T-HUD portion for H.R. 2577, passed the bill, and requested a conference.

The conference met on June 15, 2016, and filed its report (H.Rept. 114-640) the next day. The conference bill contained four divisions: (1) Division A: MILCON/VA, (2) Division B: Zika Response and Preparedness Appropriations, (3) Division C: Zika Vector Control, and (4) Division D: Rescission of Funds (\$750.0 million from three sources). The House agreed to the report on June 23, 2016. Further action in the Senate is pending.

## Introduction

This fact sheet highlights selected provisions found in the military construction portions of proposed appropriations bills for FY2017. These include H.R. 4974, introduced to the House on April 15, 2016; S. 2806, introduced to the Senate on April 18; and H.R. 2577, originally introduced to the House on May 27, 2015, as the Transportation and Housing and Urban Development and Related Agencies (T-HUD) Appropriations Act for FY2016. As reported by the conference committee (H.Rept. 114-640), Division A of H.R. 2577 would be referred to as the Military Construction, Veterans Affairs, and Related Agencies Appropriations Act (MILCON/VA), 2017.

This fact sheet addresses only those portions of the various bills that concern military construction. CRS products devoted to Department of Defense (DOD) and Veterans Affairs appropriations, the Zika virus, and T-HUD are listed in the “Additional Resources” section at the end of this report.

**Table 1** condenses the more detailed budget authority presented in the **Appendix** tables.

**Table 2** follows the status of MILCON/VA, 2017.

**Table A-1** compiles the amounts of budget authority that would be provided by the various bills to the individual military construction appropriations accounts, adjustments made through the rescission of unobligated prior-year appropriations, and additions made to accommodate a portion of the Unfunded Priority Lists (UPL) for FY2016 and FY2017 submitted by the military departments’ secretaries at the request of Congress. These appropriations are incorporated into Title I of Division A of H.R. 2577.

**Table A-2** outlines Overseas Contingency Operations military construction funding, grouped into Title IV of Division A of the bill.

This fact sheet is designed to offer Members and congressional staff the best available information pending publication of a more lengthy and permanent report on FY2017 military construction appropriations.

a. OCO funding in these bills was not segregated in a Title IV.

- b. Rescissions, or the cancellation of previously appropriated funds, and additional unrequested funding are usually found within the Administrative Provisions of a military construction appropriations bill. For more information on rescissions, see CRS Report R43234, *Across-the-Board Rescissions in Appropriations Acts: Overview and Recent Practices*, by (name redacted) .
- c. New Budget Authority is the amount of funding to be added to the various appropriation accounts upon enactment of H.R. 2577.

## Military Construction Appropriations for FY2017

### The Legislative Path for Military Construction Appropriations

H.R. 2577 in its original form, the T-HUD appropriations bill for FY2016, was passed by the House on June 9, 2015. Its provisions were eventually incorporated into the Consolidated Appropriations Act for FY2016 (P.L. 114-113). The bill was reintroduced to the Senate in May 2016 with amendments that eventually encompassed what had been three separate appropriations bills. Division A of the amended bill would have provided FY2017 T-HUD appropriations. Division B would have provided FY2017 MILCON/VA appropriations. An additional Title V of the Senate-proposed act would fund the Department of Health and Human Services for Zika virus response and preparedness. The amended bill was passed by the Senate on May 19, 2016, and sent to the House.

Upon receipt of the amended bill, the House proposed an additional amendment. H.R. 2577, as engrossed by the House, would establish Division A as the Military Construction, Veterans Affairs, and Related Agencies Appropriations Act, 2017; Division B as the Zika Response Appropriations Act, 2016; and Division C as the Zika Vector Control Act. The House passed the amended bill on May 26, 2016, and requested a conference.

The conference was held on June 15, 2016, and the conferees filed their report, H.Rept. 114-640, on June 22, 2016. The House agreed to the report on June 23, 2016, by the Yeas and Nays. The bill awaits Senate action.

**Table 2. Status of FY2017 Military Construction, Veterans Affairs, and Related Agencies Appropriations Act**

**Source:** CRS Appropriations Status Table (<http://www.crs.gov/Pages/AppropriationsStatusTable.aspx>).

**Note:** H.R. 2577 was amended by the Senate by inserting the provisions of S. 2806 into the bill. The Senate amendment was subsequently amended by the House.

### Military Construction Funding Trends

The President has requested new budget authority in the amounts of \$7.44 billion (base budget) and \$172.4 million (Overseas Contingency Operations, OCO) for a total of \$7.62 billion for military construction and military family housing for FY2017. This compares with \$7.72 billion

made available for FY2015 and \$8.54 billion enacted for FY2016. This continues a downward trend in military construction appropriations begun in FY2010, when construction activity associated with the 2005 Base Closure (BRAC) round began to subside.<sup>1</sup>

The President has requested significantly less military construction funding for FY2017 than was the norm during the early years of the 2000s. **Figure 1** illustrates the amounts of new budget authority enacted FY2000-FY2016 and projected by DOD through FY2021.

**Figure 1. Military Construction and Family Housing New Budget Authority**  
(FY2000-FY2021)

**Source:** National Defense Budget Estimates for FY2017 (Green Book), Table 6-8.

**Notes:** FY2018-FY2021 represent Future Years Defense Plan (FYDP) projections. Figures include base budget and OCO funding.

The OCO portion of the request continues a shift in emphasis that has become apparent in recent years. OCO construction has shifted from the CENTCOM (Middle East and Southwest Asia) and AFRICOM (Africa, less Egypt) Areas of Responsibility (AOR) to EUCOM (Europe). OCO military construction through FY2011 was directed to the CENTCOM AOR in Southwest Asia. For example, in FY2011, \$1.22 billion in OCO construction was devoted to Afghanistan, Qatar, and Bahrain. This began to be redirected in FY2012, when \$269.7 million in OCO construction went to projects in Afghanistan, Bahrain, and Djibouti. The FY2013 OCO appropriation included \$355.6 million for construction in Djibouti, Bahrain, and Diego Garcia (a British Protectorate in the Indian Ocean), plus funds to construct the ballistic missile defense AEGIS Ashore complex in Romania. No construction funding was identified as OCO for FY2014, but the FY2015 appropriation included \$151.9 million that encompassed some OCO construction in Djibouti and Bahrain but devoted most of its emphasis to improving airfields in Romania, Bulgaria, Poland, and the Baltic states of Lithuania, Estonia, and Latvia. The FY2016 appropriation of \$428.9 million was devoted largely to an AEGIS Ashore Missile Defense Complex in Poland, with the remainder going to ship-related construction in Bahrain and airfield improvements in Oman, Niger, and Djibouti. Nearly two-thirds of the FY2017 request of \$172.4 million is designated as

<sup>1</sup> Some numbers may not appear to add precisely due to rounding.

part of the European Reassurance Initiative and is dedicated to airfield improvements in Estonia, Lithuania, Romania, Bulgaria, and Poland, plus additional facilities in Iceland and Germany to accommodate the Navy's P-8A *Poseidon* and the Air Force's F/A-22 *Raptor* aircraft. The remainder of the FY2017 request is intended for projects in Djibouti.

## Appendix. Detailed Appropriations Tables

**Table A-1** shows the amounts of budget authority granted to the various military construction and family housing appropriations accounts as enacted for FY2016 and as requested by the President, passed by the two chambers and reported by the conference committee.

The table is grouped into seven separate clusters similar to those present in the bills. Nevertheless, the bill's Administrative Provisions section, which includes both rescissions of funds and new funding for the military departments' Unfunded Priorities List, has been broken into two clusters for clarity:

- Active Components (Army, Navy and Marine Corps, Air Force, and Defense-Wide, which includes defense agencies and Special Operations Command [SOCOM]);
- Reserve Components (National Guard and Reserves);
- NATO Security Investment Program (NSIP);
- Family Housing (including the Family Housing Improvement Fund, the principal DOD support for the military housing privatization initiative);
- BRAC (military base realignment and closure);
- Administrative Provisions (the normal location for rescission of prior-year appropriated budget authority); and
- Unfunded Priority Lists (budget authority not requested by the President in his annual budget request but planned for future years).

**Source:** Adapted from H.Rept. 114-640.

- a. The DOD Housing Improvement Fund is the principal source of appropriated funds to support the Military Housing Privatization Initiative (privatized military housing). The rescission would be taken from unobligated prior-year budget authority.
- b. Since the completion in 2011 of the 2005 round of military base closures and realignments, virtually all funding in the Base Realignment and Closure (BRAC) account has been devoted to environmental remediation efforts on surplus DOD property.
- c. Section (§) numbers refer to provisions in either the House (H) or Senate (S) amendments to or the conference (Conf) agreement on H.R. 2577. This provision would rescind unobligated budget authority appropriated in prior years.
- d. The Housing Assistance Program authorizes the Secretary of Defense to provide financial aid to eligible military, civilian, and certain overseas and non-appropriated fund employee homeowners where defense installations have been closed or where operations have been significantly reduced and real property values have subsequently declined. Several years ago, eligibility for the program was expanded to include certain wounded, injured, or ill service members and surviving spouses.
- e. For a number of years, at the request of the House Committee on Armed Services, the military departments have submitted a list of their highest-priority projects that were not included in the President's annual budget submission. These are commonly referred to as Unfunded Priority Lists (UPL). In the various versions of the bill, UPL appropriations are included within the more general Administrative Provisions section. They are separated in this table for clarity. The military department's general Unfunded Priorities Lists is available at <http://www.cq.com/pdf/4847609.pdf>, <http://www.cq.com/pdf/4847607.pdf>, <http://www.cq.com/pdf/4847611.pdf>, and <http://www.cq.com/pdf/4847603.pdf>.
- f. The figures shown for *Total, New Budget Authority, Title I, Department of Defense* reflect the new budget authority that would be appropriated by the act.
- g. The figures shown for *Total Appropriations, Title I, Department of Defense*, represent the budget authority that would be made available for Title I military construction combining the new budget authority granted and the already appropriated budget authority rescinded from prior appropriations acts.

**Table A-2** presents the military construction funding requested and recommended for Overseas Contingency Operations construction.

**Table A-2. Title IV, Overseas Contingency Construction Budget Authority, FY2016-FY2017**

(thousands of dollars)

Account	FY2016 Enacted <sup>a</sup>	FY2017 Request	FY2017 House	FY2017 Senate <sup>b</sup>	FY2017 Conference
<b>Overseas Contingency Operations</b>

<b>Total, Title IV, Overseas Contingency Construction</b>	<b>—</b>	<b>172,449</b>	<b>172,000</b>	<b>—</b>	<b>172,000</b>

**Source:** Adapted from H.Rept. 114-640.

- a. The House version of the FY2016 MILCON/VA appropriations bill (H.R. 2029) would have segregated OCO construction funding into a Title IV. The Senate amendment to the bill did not contain a separate OCO construction Title IV. The enacted appropriation, Division J of the Consolidated Appropriations Act, 2016 (P.L. 114-113), followed the Senate outline.
- b. The Senate amendment to H.R. 2577 did not separate OCO construction funding in a separate title.

## EveryCRSReport.com

The Congressional Research Service (CRS) is a federal legislative branch agency, housed inside the Library of Congress, charged with providing the United States Congress non-partisan advice on issues that may come before Congress.

EveryCRSReport.com republishes CRS reports that are available to all Congressional staff. The reports are not classified, and Members of Congress routinely make individual reports available to the public.

Prior to our republication, we redacted names, phone numbers and email addresses of analysts who produced the reports. We also added this page to the report. We have not intentionally made any other changes to any report published on EveryCRSReport.com.

CRS reports, as a work of the United States government, are not subject to copyright protection in the United States. Any CRS report may be reproduced and distributed in its entirety without permission from CRS. However, as a CRS report may include copyrighted images or material from a third party, you may need to obtain permission of the copyright holder if you wish to copy or otherwise use copyrighted material.

Information in a CRS report should not be relied upon for purposes other than public understanding of information that has been provided by CRS to members of Congress in connection with CRS' institutional role.

EveryCRSReport.com is not a government website and is not affiliated with CRS. We do not claim copyright on any CRS report we have republished.
