Summary

Commemorative coins are produced by the U.S. Mint pursuant to an act of Congress and are often proposed by Members of Congress as part of their representational duties. These coins are legal tender that celebrate and honor American people, places, events, and institutions. Since 1982, when Congress reinstated the commemorative program, 82 commemorative coins have been authorized. Since 1998, only two coins may be authorized for any given year. To date, Congress has authorized commemorative coins to be issued through 2018.

The issuance of commemorative coins can be broadly divided into two eras: historical coins and modern coins. Historical commemorative coins were those authorized between 1892 and 1954 and generally celebrated anniversaries, public events, or the construction of new memorials. These coins were sold by the government to the sponsor organization, which then resold the coins to the public at a higher price to earn money to support their mission.

In 1939, Congress stopped authorizing new coins because a glut of commemorative coins on the market had caused their value to decline, and the U.S. Treasury became concerned that so many coins might facilitate counterfeiting. These sentiments were echoed by President Dwight D. Eisenhower, who in 1954 vetoed legislation for a half-dollar honoring the tercentennial of New York City and remarked that “large quantities [of coins] have remained unsold and have been returned to the mints for melting.” The historical era concluded with the minting of George Washington Carver and Booker T. Washington half-dollars between 1951 and 1954.

The modern commemorative coin era began in 1982, when Congress authorized coins to celebrate the 250th anniversary of George Washington’s birth. Between 1982 and 1997, prior to the Commemorative Coin Reform Act (CCRA) of 1996’s statutory limitation of two commemorative coins issued per year, 47 commemorative coins were authorized and minted. Between 1998 and 2015, an additional 35 coins were authorized and minted. Six additional coins have been authorized, two each for 2016, 2017, and 2018.

Commemorative coin legislation generally has a specific format. Once a coin is authorized, it follows a specific process for design and minting. This process includes consultation and recommendations by the Citizens Coin Advisory Commission (CCAC) and the U.S. Commission of Fine Arts (CFA), pursuant to any statutory instructions, before the Secretary of the Treasury makes the final decision on a coin’s design. Following the conclusion of a coin program, designated recipient organizations may receive surcharge payments, once the U.S. Mint has recouped all costs associated with producing the coin.

Should Congress want to make changes to the commemorative coin process, several individual and institutional options might be available. The individual options include decisions made by Members of Congress as to which people, places, events, or institutions should be celebrated; which groups should receive potential surcharge payments; and any specific design requirements Congress might want to request or require. The institutional options could include House, Senate, or committee rules for the consideration of commemorative coin legislation and whether the statutory maximum of two coins minted per year is too many or too few.

Introduction

Commemorative coins are coins that are “produced with the primary intention of creating a special souvenir to be sold (at a premium above face value) to observe or memorialize an anniversary, special occasion, or other event.”¹ Produced by the U.S. Mint pursuant to an act of Congress, these coins celebrate and honor American people, places, events, and institutions. Although they are considered legal tender, they are not minted for general circulation. Instead, they are designed to be collected and to help designated groups raise money to support group activities.² Commemorative coin legislation is often proposed by Members of Congress as part of their representational duties.

The first commemorative coin was authorized in 1892 for the World’s Columbian Exposition in Chicago.³ Issued as a silver half-dollar, the proceeds for the sale of the coin were used “for the purpose of aiding in defraying the cost of completing in a suitable manner the work of preparation for inaugurating the World’s Columbian Exposition.”⁴

Beginning in 1892 and continuing to the present day—with a hiatus between 1954 and 1981—coins have been a part of the commemoration of people, places, events, and institutions. This report examines the origins, development, and current practices for commemorative coins, including the authorization process; the design of coins; and issues for congressional consideration, including the disbursement of surcharges, the number of coins minted per year, differences between the number of authorized coins and coins sold, and requirements for legislative consideration in the House and Senate.

Historical Commemorative Coins

Since 1892, Congress has authorized 148 new commemorative coins. Sixty of these coins were authorized between 1892 and 1954. During this period, most commemorative coins celebrated state anniversaries (e.g., Connecticut’s tercentennial in 1935), expositions and event anniversaries (e.g., the Lexington-Concord Sesquicentennial in 1925 or the Louisiana Purchase Exposition in 1903), or helped support memorials (e.g., the Grant Memorial in 1922 or the Stone Mountain Memorial in 1925). During this time period, coins “were sold to sponsoring organizations, which resold them to the public at higher prices as a means of fundraising.”⁵ The authorization of new commemorative coins was “discontinued by Congress in 1939, with the exception of three coins issued through 1954.”⁶ For a list of historical commemorative coins authorized between 1892 and 1954, see **Appendix A**.

In the historical time period, groups bought coins from the U.S. Mint at face value and then resold them at higher prices to raise money to support their activities.

⁶ U.S. Commission of Fine Arts, *Civic Art: A Centennial History of the U.S. Commission of Fine Arts* (Amherst, MA: University of Massachusetts Press, 2013), p. 366. [Hereinafter CFA, *Civic Art*]. The coins issued after 1939 were the half-dollars for the Iowa Centennial, the Booker T. Washington Memorial, and for George Washington Carver.

Between 1954 and 1981, Congress did not authorize any new commemorative coins. The moratorium on new commemorative coins was in part because public interest in the coins had waned and the Department of the Treasury was concerned that “multiplicity of designs on United States coins would tend to create confusion among the public, and to facilitate counterfeiting.”⁷ In his February 1954 veto statement to Congress on S. 2474 (83rd Congress), which would have authorized a 50-cent piece for the tercentennial of New York City, President Eisenhower cited a diminishing interest among the public for the collection of commemorative coins. President Eisenhower stated:

I am further advised by the Treasury Department that in the past in many instances the public interest in these special coins has been so short-lived that their sales for the purposes intended have lagged with the result that large quantities have remained unsold and have been returned to the mints for melting.⁸

Modern Commemorative Coins

In 1982, Congress resumed the authorization of commemorative coins with the enactment of a bill to issue a commemorative half-dollar for George Washington’s 250th birthday.⁹ With the issuance of new commemorative coins, the “range of subject matter expanded to include subjects such as women, historical events, and even buildings and landscapes.”¹⁰ Additionally, the concept of surcharges as a method to direct money to designated groups was introduced. The idea of a surcharge—a statutorily authorized “dollar amount added to the price of each coin”¹¹—was not without controversy. “These related surcharges became controversial with collectors, many of whom resented making involuntary donations when they bought coins. Today, the practice ... is ... the linchpin that has ignited most commemorative programs—as potential recipients of the surcharge launch ... lobbying campaigns in Congress.”¹²

Commemorative coins authorized during the modern period can be subdivided into coins minted between 1982 and 1997, and coins minted since 1998. In 1996, the Commemorative Coin Reform Act (CCRA) was enacted to (1) limit the maximum number of different coin programs minted per year;¹³ (2) limit the maximum number of coins minted per commemorative coin program;¹⁴ and (3) clarify the law with respect to the recovery of Mint expenses before surcharges are disbursed

¹² Bowers, *United States Commemorative Coins*, p. 15.

¹³ A commemorative coin program is the subject matter statutorily authorized to be depicted on a commemorative coin. Within each commemorative coin program, multiple denominations of coins might be authorized. For example, P.L. 112-201 (§3, 126 Stat. 1480, December 4, 2012) authorized a commemorative coin program for Mark Twain. The statute authorized the minting of both \$5 gold coins and \$1 silver coins.

¹⁴ For example, the Mark Twain commemorative coin program limited the number of coins that might be minted. P.L. 112-201, §3, required that the U.S. Mint issue “not more than 100,000 \$5 coins ... and not more than 350,000 \$1 coins.”

and conditions of payment of surcharges to recipient groups.¹⁵ The CCRA restrictions began in 1998.

Commemorative Coins, 1982-1997

Between 1982 and 1997, Congress authorized 47 commemorative coins. In several cases, multiple coins were authorized to recognize specific events, including the 1984 Summer Olympics in Los Angeles and the 1996 Summer Olympics in Atlanta. See **Appendix B** for a list of commemorative coins authorized by Congress prior to the two-per-year limit imposed by the CCRA.

Commemorative Coins, 1998-Present

As noted above, the CCRA limited the U.S. Mint to issuing two coins per year, beginning in 1998.¹⁶ This action was taken in response to the proliferation of commemorative coins authorized since the program was restarted in 1982. Between 1982 and 1997, as many as six different coins were minted in a single year (1994). Ten distinct coins were issued each year (eight Olympic coins per year in addition to two other commemorative coin programs) in 1995 and 1996.¹⁷ Starting in 1998, a maximum of two coins were to be authorized for minting in a given year. Even with this restriction, however, three coins were minted in 1999. Additionally, on two occasions, only one coin was authorized for a given year—2003 and 2008. **Table 1** lists authorized commemorative coins since 1998, including their authorizing statute.

Source: U.S. Department of Treasury, U.S. Mint, “Modern Commemorative Coins,” at https://www.usmint.gov/mint_programs/commemoratives/?action=modern; U.S. Department of Treasury, U.S. Mint, “Commemorative Coin Programs,” at https://www.usmint.gov/mint_programs/?action=commemoratives; and CRS examination of public laws.

Notes:

- a. The American Buffalo commemorative coin was also known as the National Museum of the American Indian commemorative coin (P.L. 106-375, §1).
- b. In 2011, Congress also authorized “the striking of silver medals in commemoration of the 10th anniversary of September 11, 2001, terrorist attacks on the U.S. and the establishment of the National September 11 Memorial & Museum at the World Trade Center” (P.L. 111-221). For more information, see U.S. Department of the Treasury, U.S. Mint, “The 2011 September 11 National Medal,” at http://www.usmint.gov/mint_programs/medals/?action=911NationalMedal.

As listed in **Table 1**, a total of 35 commemorative coins were struck by the U.S. Mint between 1998 and 2015. The average coin minted during this time period was authorized three years prior to being struck, with the longest time period between authorization and minting being the West Point Bicentennial commemorative coin, which was authorized in 1994 to be struck in 2002. The shortest time period between authorization and minting was the San Francisco Old Mint commemorative coin, which was authorized and struck in the same year: 2006.

In addition to completed commemorative coin programs, Congress has authorized coins to be minted in 2016 and future years. Currently, coins are authorized for 2016, 2017, and 2018. No

coins are currently authorized for 2019 or beyond. **Table 2** lists current and future commemorative coins, including their authorizing statute.

Table 2. Authorized Current and Future Commemorative Coins, 2016-2018

Year	Commemorative Coin	Authorizing Statute
2016	Mark Twain	P.L. 112-201, 126 Stat. 1479, December 4, 2012

Note: In the 114th Congress, two commemorative coin bills have become law and are not included in the table. H.R. 893 (P.L. 114-30) authorized the Boys Town Centennial commemorative coin for minting in 2017 and H.R. 2722 (P.L. 114-148) authorized the Breast Cancer Awareness commemorative coin for minting in 2018.

Authorizing Commemorative Coins

Once a commemorative coin bill is introduced, it is typically referred to the House Committee on Financial Services or the Senate Committee on Banking, Housing and Urban Affairs.¹⁸ Commemorative coin legislation generally has certain features, including:

- findings that summarize the commemorative subject's history and importance;
- specifications for denominations, weight, and metallic makeup;
- design requirements, including required dates, words, and images;
- start and end dates for minting coins and any other limitations;
- requirements for selling coins;
- coin surcharge and distribution to designated groups; and
- assurances that costs of the coin program are recouped by the U.S. Mint.

The following provides examples of the features generally found in a commemorative coin bill.

Findings

Commemorative coin legislation typically includes a section of findings. These include historical facts about the people, places, events, and institutions being honored by the coin. For example, the legislation to authorize the Star-Spangled Banner commemorative coin stated:

SEC. 2. FINDINGS.

The Congress finds as follows:

- (1) During the Battle for Baltimore of the War of 1812, Francis Scott Key visited the British fleet in the Chesapeake Bay on September 7, 1814, to secure the release of Dr. William Beanes, who had been captured after the British burned Washington, DC.
- (2) The release of Dr. Beanes was secured, but Key and Beanes were held by the British during the shelling of Fort McHenry, one of the forts defending Baltimore.
- (3) On the morning of September 14, 1814, after the 25-hour British bombardment of Fort McHenry, Key peered through the clearing smoke to see a 42-foot by 30-foot American flag flying proudly atop the Fort.
- (4) He was so inspired to see the enormous flag still flying over the Fort that he began penning a song, which he named The Defence of Fort McHenry, to commemorate the occasion and he included a note that it should be sung to the tune of the popular British melody To Anacreon in Heaven.
- (5) In 1916, President Woodrow Wilson ordered that the anthem, which had been popularly renamed the Star-Spangled Banner, be played at military and naval occasions.
- (6) On March 3, 1931, President Herbert Hoover signed a resolution of Congress that

¹⁸ U.S. Congress, House, Financial Service Committee, at <http://financialservices.house.gov>; and U.S. Congress, Senate, Committee on Banking, Housing, and Urban Affairs, at <http://www.banking.senate.gov>.

officially designated the Star-Spangled Banner as the National Anthem of the United States.¹⁹

Coin Specification

The coin specification section typically provides details on the type and number of coins authorized to be minted. Additionally, this section generally includes language that makes the coin legal tender and a numismatic item. In some cases, this section also includes specific language on coin design. For example, the legislation authorizing the National Baseball Hall of Fame commemorative coin includes language on the three types of coins authorized—\$5 gold coin, \$1 silver coin, and half-dollar clad coin—and a sense of Congress that the reverse side of the coin should be “convex to more closely resemble a baseball, and the obverse concave.”²⁰

SEC. 3. COIN SPECIFICATIONS.

(a) DENOMINATIONS.—In recognition and celebration of the National Baseball Hall of Fame, the Secretary of the Treasury (hereafter in this Act referred to as the “Secretary”) shall mint and issue the following coins:

(1) \$5 GOLD COINS.—Not more than 50,000 \$5 coins, which shall—

- (A) weigh 8.359 grams;
- (B) have diameter of 0.850 inches; and
- (C) contain 90 percent gold and 10 percent alloy.

(2) \$1 SILVER COINS.—Not more than 400,000 \$1 coins, which shall—

- (A) weigh 26.73 grams;
- (B) have a diameter of 1.500 inches; and
- (C) contain 90 percent silver and 10 percent copper.

(3) HALF-DOLLAR CLAD COINS.—Not more than 750,000 half-dollar coins which shall—

- (A) weigh 11.34 grams;
- (B) have a diameter of 1.205 inches; and
- (C) be minted to the specifications for half-dollar coins contained in section 5112(b) of title 31, United States Code.

(b) LEGAL TENDER.—The coins minted under this Act shall be legal tender, as provided in section 5103 of title 31, United States Code.

(c) NUMISMATIC ITEMS.—For purposes of sections 5134 and 5136 of title 31, United States Code, all coins minted under this Act shall be considered to be numismatic items.

(d) SENSE OF CONGRESS.—It is the sense of Congress that, to the extent possible without significantly adding to the purchase price of the coins, the \$1 coins and \$5 coins minted under this Act should be produced in a fashion similar to the 2009 International

¹⁹ P.L. 111-232, §2, 124 Stat. 2490, August 16, 2010.

²⁰ P.L. 112-152, §3(d), 126 Stat. 1156, August 3, 2012.

Year of Astronomy coins issued by Monnaie de Paris, the French Mint, so that the reverse of the coin is convex to more closely resemble a baseball and the obverse concave, providing a more dramatic display of the obverse design chosen pursuant to section 4(c).²¹

Design of Coins

Commemorative coin legislation also typically specifies requirements for the design of the coin. These include official language on words or dates that are to appear on the coin and instructions about how the design might be chosen. For example, the legislation to authorize the Civil Rights Act of 1964 commemorative coin stated:

Sec. 4 DESIGN OF COINS.

(a) DESIGN REQUIREMENTS.—The design of the coins minted under this Act shall be emblematic of the enactment of the Civil Rights Act of 1964 and its contribution to civil rights in America.

(b) DESIGNATION AND INSCRIPTIONS.—On each coin minted under this Act there shall be—

(1) a designation of the value of the coin;

(2) an inscription of the year “2014”; and

(3) inscriptions of the words “Liberty”, “In God We Trust”, “United States of America”, and “E Pluribus Unum”.

(c) SELECTION.—The design for the coins minted under this Act shall be—

(1) selected by the Secretary after consultation with the Commission of Fine Arts; and

(2) reviewed by the Citizens Coinage Advisory Committee established under section 5135 of title 31, United States Code.²²

Issuance of Coins

The issuance of coins section typically specifies the time period that the coin will be available for sale and provides any instructions to the Secretary of the Treasury as to which mint location should strike the coins and the quality of the coins to be issued. For example, the March of Dimes commemorative coin authorization stated:

SEC. 5. ISSUANCE.

(a) Quality of Coins.—Coins minted under this Act shall be issued in uncirculated and proof qualities.

(b) Mint Facility.—For the coins minted under this Act, at least 1 facility of the United

²¹ P.L. 112-152, §3, 126 Stat. 1156, August 3, 2012.

²² P.L. 110-451, §4, 122 Stat. 5022, December 2, 2008.

States Mint shall be used to strike proof quality coins, while at least 1 other such facility shall be used to strike the uncirculated quality coins.

(c) Period for Issuance.—The Secretary of the Treasury may issue coins minted under this Act only during the 1-year period beginning on January 1, 2015.²³

Sale of Coins

The sale of coins section typically sets the sale price of the coin and provides instructions to the Mint on bulk sales and prepaid coin orders. For example, the statute authorizing the Five-Star Generals commemorative coin stated:

SEC. 6. SALE OF COINS.

(a) SALE PRICE.—The coins issued under this Act shall be sold by the Secretary at a price equal to the sum of—

- (1) the face value of the coins;
- (2) the surcharge provided in section 7(a) with respect to such coins; and
- (3) the cost of designing and issuing the coins (including labor, materials, dies, use of machinery, overhead expenses, marketing, and shipping).

(b) BULK SALES.—The Secretary shall make bulk sales of the coins issued under this Act at a reasonable discount.

(c) PREPAID ORDERS.—

(1) IN GENERAL.—The Secretary shall accept prepaid orders for the coins minted under this Act before the issuance of such coins.

(2) DISCOUNT.—Sale prices with respect to prepaid orders under paragraph (1) shall be at a reasonable discount.²⁴

Surcharges

The surcharges section of the legislation typically sets the surcharges (amount above the face value that the U.S. Mint charges) per coin and designates the distribution of these surcharges to recipient organizations. For example, the statute to authorize the United States Army commemorative coin stated:

SEC. 7. SURCHARGES.

(a) In General.—All sales of coins minted under this Act shall include a surcharge as follows:

- (1) A surcharge of \$35 per coin for the \$5 coin.
- (2) A surcharge of \$10 per coin for the \$1 coin.

²³ P.L. 112-209, §5, 126 Stat. 1511, December 18, 2012.

²⁴ P.L. 111-262, §6, 124 Stat. 2784, October 8, 2010.

(3) A surcharge of \$5 per coin for the half dollar coin.

(b) Distribution.—Subject to section 5134(f) of title 31, United States Code, all surcharges received by the Secretary from the sale of coins issued under this Act shall be promptly paid by the Secretary to the Foundation to help finance the National Museum of the United States Army.

(c) Audits.—The Foundation shall be subject to the audit requirements of section 5134(f)(2) of title 31, United States Code, with regard to the amounts received by the Foundation under subsection (b).

(d) Limitation.—Notwithstanding subsection (a), no surcharge may be included with respect to the issuance under this Act of any coin during a calendar year if, as of the time of such issuance, the issuance of such coin would result in the number of commemorative coin programs issued during such year to exceed the annual 2 commemorative coin program issuance limitation under section 5112(m)(1) of title 31, United States Code (as in effect on the date of the enactment of this Act). The Secretary of the Treasury may issue guidance to carry out this subsection.²⁵

More information on surcharges and disbursement to designated recipient organizations can be found below under “Disbursement of Surcharges.”

Consideration of Legislation in Congress

Neither House nor Senate rules provide any restrictions specifically concerning consideration of commemorative coin legislation on the House or Senate floor.²⁶ Pursuant to Senate and House rules, the Senate Committee on Banking, Housing, and Urban Affairs and the House Committee on Financial Services have jurisdiction over commemorative coin legislation.²⁷

In the Senate, the Banking, Housing and Urban Affairs Committee rules place a minimum on the number of cosponsors a commemorative coin bill must have before committee consideration. Committee Rule 8 requires that “at least 67 Senators must cosponsor any ... commemorative coin bill or resolution before consideration by the Committee.”²⁸

Currently, the House Financial Services Committee has not adopted any specific rules concerning committee consideration of commemorative coin legislation. In some past Congresses the committee had adopted a rule to prohibit (1) the scheduling of a subcommittee hearing on commemorative coin legislation unless two-thirds of the House cosponsored the measure, or (2) reporting a bill that did not meet minting regulations under 31 U.S.C. §5112.²⁹ This rule was not adopted as part of the committee rules for the 114th Congress.

²⁵ P.L. 110-450, §7, 122 Stat. 5019, December 1, 2008.

Design of Coins

After Congress has authorized a commemorative coin, the U.S. Treasury begins the coin design process. This process involves consultation with the Citizens Coinage Advisory Committee (CCAC) and a design recommendation by the U.S. Commission of Fine Arts (CFA). The final decision on a coin's design is made by the Secretary of the Treasury.³⁰

Citizens Coinage Advisory Committee

Established by P.L. 108-15,³¹ the CCAC advises the Secretary of the Treasury on theme and design of all U.S. coins and medals. For commemorative coins, the CCAC advises the Secretary with regard to events, persons, or places to be commemorated, the mintage level of coins, and commemorative coin designs.

The CCAC consists of 11 members appointed by the Secretary of the Treasury, with four persons appointed upon the recommendation of the congressional leadership (one each by the Speaker of the House, the House minority leader, the Senate majority leader, and the Senate minority leader).³² The CCAC meets several times each year to consider design suggestions for coins and medals. For each coin considered, the CCAC provides advice to the Secretary “on thematic, technical, and design issues related to the production of coins.”³³ Recommendations are then published to the committee's website, at <http://www.ccac.gov>.

When making recommendations to the Secretary, the CCAC considers several design aspects. **Figure 1** shows the CCAC's “Design Aspects We Look For,” when advising groups on coin design.

Figure 2 shows examples of U.S. Commemorative coins. These include the first U.S. commemorative coin (1893 World’s Columbian Exposition half-dollar), one of the best-selling commemorative coin programs of all time (1986 Statue of Liberty half-dollar),³⁴ and one of the most recent (2016 National Park Service Centennial).

³⁴ In total, the two Statue of Liberty commemorative coins sold more than 15 million units. The program consisted of a \$5 gold coin and a half-dollar coin. For more information on commemorative coin sales, see Department of the Treasury, U.S. Mint, “Historical Commemorative Coin Sales,” at http://www.usmint.gov/about_the_mint/index.cfm?action=historical-commemorative-coin-sales.

U.S. Commission of Fine Arts

Once the CCAC has recommended a commemorative coin design, the U.S. Mint makes a formal presentation of CCAC’s recommendation and other design options to the U.S. Commission of Fine Arts (CFA). Established in 1910, the CFA advises “upon the location of statues, fountains, and monuments in the public squares, streets, and parks in the District of Columbia, the selection of models for statues, fountains, and monuments erected under the authority of the Federal Government; the selection of artists; and questions of art generally when required to do so by the

President or a committee of Congress.”³⁵ This includes review of commemorative coins when they are presented by the U.S. Mint and the issuance of recommendations for a coin’s design.

For example, in March 2016, the U.S. Mint presented several alternative designs for the Boys Town Centennial Commemorative Coin program. In a letter to the U.S. Mint, the CFA provided recommendations on the design for each of the three statutorily required coins. CFA’s letter stated:³⁶

24 March 2016

Dear Mr. Jeppson:

In its meeting of 17 March, the Commission of Fine Arts reviewed alternative designs for the three coins of the Boys Town Centennial Commemorative Coin Program. The Commission members provided the following recommendations.

Five-dollar gold coin. The Commission members recommended the obverse and reverse pairing presented as alternative #1, with the suggestion to substitute the text “The Work Will Continue” for the proposed inscription “Saving Children – Healing Families.”

One-dollar silver coin. The Commission members recommended the obverse and reverse pairing that was presented as the half-dollar clad coin’s alternative #13, consistent with the recommendation of the Citizens Coinage Advisory Committee (CCAC); they supported the modified locations of inscriptions as requested by the CCAC.

Half-dollar clad coin. The Commission members recommended the obverse and reverse pairing that was presented as the one-dollar silver coin’s alternative #16, acknowledging that some of the complex linework in the presented drawing of the reverse may need to be simplified as the design is sculpted for coinage.

As always, the staff is available to assist you with future submissions.

Sincerely,

/s/Thomas E. Luebke, FAIA

Secretary

U.S. Mint

After receiving advice from the CCAC and the CFA, the Secretary of the Treasury, through the U.S. Mint, finalizes the coin’s design and schedules it for production at the appropriate time. In some cases, the U.S. Mint holds a competition for coin designs. For example, in February 2016, the U.S. Mint announced a design competition for the 2018 commemorative coin to World War I American Veterans.³⁷ Additionally, designers are to compete in late 2016 for the 2018 Breast Cancer Awareness commemorative coin.³⁸

Commemorative Coin Timeline

From authorization to coin launch, the CCAC has estimated that a commemorative coin takes a minimum of between 56 and 60 weeks. This includes the coin design process, engraving,

³⁵ 40 U.S.C. §9102.

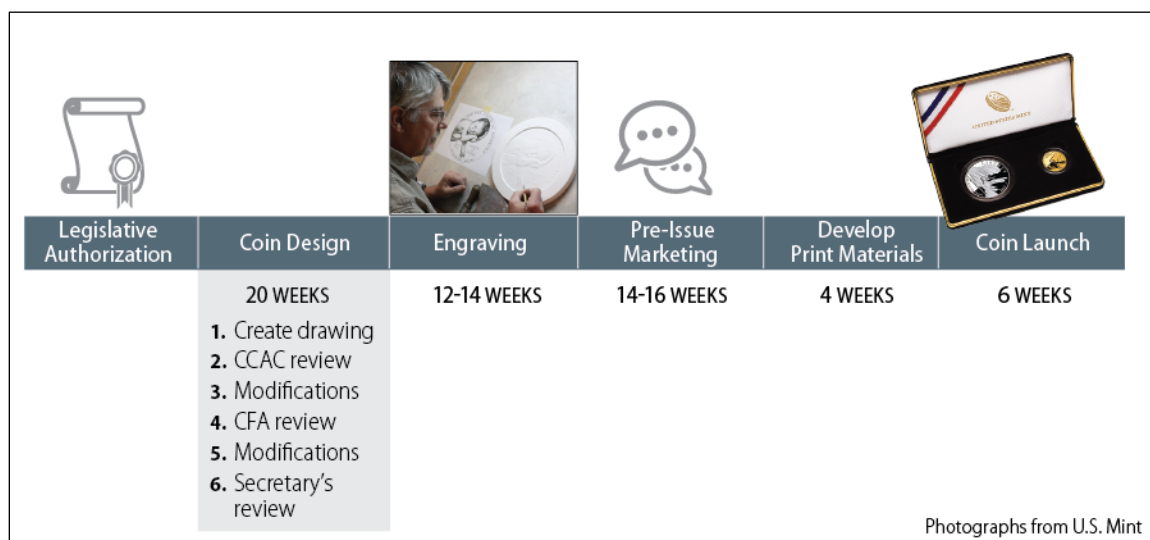

³⁶ Letter from Thomas E. Luebke, secretary, U.S. Commission of Fine Arts, to Rhett Jeppson, principal deputy director, U.S. Mint, March 24, 2016, at <https://www.cfa.gov/records-research/project-search/cfa-17mar16-5>.

³⁷ U.S. Department of the Treasury, “United States Mint Launches Design Competition,” press release, February 18, 2016, <https://www.treasury.gov/connect/blog/Pages/United-States-Mint-Launches-Design-Competition.aspx>. The competition occurs in two stages. First, applicants submit three to five samples of work. Second, a group of invited applicants is asked to submit coin designs. The initials of the competition’s winner will be placed on the coin and the winner will receive \$10,000. Currently, the competition for the World War I commemorative coin is ongoing.

³⁸ U.S. Mint, “Coin Design Competitions,” at <http://www.usmint.gov/competition>.

marketing, printing materials, and coin launch. This timeline, however, does not account for coin programs that might be authorized years in advance of the coins' scheduled release. In those circumstances, the process from authorization to coin launch will be considerably longer. The process, as described by the CCAC, is shown in **Figure 3**.

Figure 3. Commemorative Coin Process

Source: Citizen Commemorative Coin Advisory Committee, *2000 Annual Report*, at <http://www.usmint.gov/foia/index.cfm?action=CC00report>.

Note: The Citizens Commemorative Coin Advisory Committee (CCCAC) became the Citizens Coinage Advisory Committee pursuant to P.L. 108-15 (§103, 117 Stat 615, April 23, 2003).

Disbursement of Surcharges

As discussed above under “Authorizing Commemorative Coins,” each authorizing statute sets a surcharge amount per coin and designates one or more recipient organizations to receive the surcharges. A designated recipient organization is “any organization designated, under any provision of law, as the recipient of any surcharge imposed on the sale of any numismatic item.”³⁹

Commemorative coin legislation generally includes the name(s) of the organization(s) that will benefit from the sale of the coin and how the surcharges will be divided, if necessary. For example, the legislation authorizing a commemorative coin for the U.S. Marshals Service specified four groups to receive distribution from the program.⁴⁰ They were

- the U.S. Marshals Museum, Inc.,
- the National Center for Missing & Exploited Children,
- the Federal Law Enforcement Officers Association Foundation, and
- the National Law Enforcement Officers Memorial Fund.⁴¹

³⁹ P.L. 104-208, §529, 110 Stat. 3009-349, September 30, 1996.

⁴⁰ P.L. 112-104, 126 Stat. 289, April 2, 2012.

⁴¹ P.L. 112-104, §7.

Additionally, the law might also specify how much money the designated recipient organization should receive. For the Marshals Service commemorative coin, the first \$5 million was specified for the U.S. Marshals Museum. After that, additional surcharges were divided equally among the National Center for Missing & Exploited Children, the Federal Law Enforcement Officers Association Foundation, and the National Law Enforcement Officers Memorial Fund.⁴²

Once a commemorative coin has been authorized, the CCRA requires that certain standards be met before surcharge payments can be distributed to designated recipient organizations:⁴³

1. The recipient organization must raise funds from private sources “in an amount that is equal to or greater than the total amount of the proceeds of such surcharge derived from the sale of such numismatic item.”⁴⁴
2. The qualifying funds raised from private sources must be for the purposes specified by the enabling legislation.
3. The U.S. Mint must recover “all numismatic operation and program costs allocable to the program.”⁴⁵
4. The recipient organization must submit an audited financial statement and submit the results of annual audits to demonstrate, to the satisfaction of the Secretary of the Treasury, that it has qualified for surcharge proceeds and is properly expending them.⁴⁶

⁴² P.L. 112-104, §7.

⁴³ To guide designated recipient groups, the U.S. Mint has published guidance on surcharge disbursement. U.S. Mint, *Surcharge Recipient Organization’s Compliance Procedures for Surcharge Eligibility & Payments*, at https://www.usmint.gov/downloads/mint_programs/080615_RO_Handbook_Final_ConsolidatedwthAppens_Columns.pdf. [Hereinafter, *Surcharge Recipient Manual*].

⁴⁴ The CCRA requires that designated recipient organizations demonstrate that funds have been raised from private sources for the project designated to receive the surcharges from the commemorative coin program. In order to receive surcharge payments, “the total of qualifying private funds raised must be greater than or equal to the total amount of the proceeds of such surcharge derived from the sale of such numismatic item.” Further, “private funds are funds raised from non-governmental sources,” and can include cash contribution and other assets that can be readily converted to cash. Other assets that can be readily converted to cash might include “donations of common stock or marketable real estate.” In-kind donations are not considered “funds,” and are not included in calculations for the purpose of surcharge disbursement. Fundraising time limits are also placed on designated recipient organizations. All eligible private funds must be raised “during the period between the inception of the recipient organization and the date two years after the last day any coin in the respective program is issued by the Secretary” (*Surcharge Recipient Manual*, pp. 4-5).

⁴⁵ Further, payments are not generally made until “the recipient organization satisfactorily demonstrates that it has raised qualifying funds from private sources in an amount equal to or greater than the maximum amount the organization may receive from the proceeds of surcharges under the respective [commemorative coin] program” (*Surcharge Recipient Manual*, p. 14). If the recipient organization has demonstrated that qualifying funds have been raised, “the United States Mint will consider accommodating the recipient organization by making interim surcharge payments at the United States Mint’s discretion,” although “any interim surcharge payment will depend on the financial performance of the program and the risk of loss to which the United States Mint may be exposed by releasing surcharge funds before the termination of the program” (*Surcharge Recipient Manual*, p. 12). Interim payments may be made starting six months after the start of the commemorative coin program with payments up to 50% of surcharges collected by the U.S. Mint. Further payments of up to 25% may be made nine months after the start of the program, with the remainder paid upon program close out.

⁴⁶ *Surcharge Recipient Manual*, p. 1. Additionally, audits are required for privately raised funds. “The auditor’s report shall cover the period necessary to demonstrate that required funds from private sources have been raised by the recipient organization. The period reported should be by fiscal year of the recipient organization and must correspond with the period covered by the recipient organization’s assertion. The auditor should submit its report promptly to the recipient organization upon completion” (*Surcharge Recipient Manual*, p. 6).

Guidance provided by the U.S. Mint in *Surcharge Recipient Organization’s Compliance Procedures for Surcharge Eligibility & Payments* includes further details of the requirements placed on designated recipient groups before surcharge payments can be made. These include requirements for documentation on the amount of money raised from private sources and the period of fund raising. To document these requirements, designated recipient groups must fill out a “Schedule of Funds Raised From Private Sources,” which is provided in an appendix to the *Surcharge Recipient Organization’s Compliance Procedures for Surcharge Eligibility & Payments* publication.⁴⁷

Following completion of these tasks, and *after* the Mint has recouped any expenses related to minting the commemorative coin, surcharges are then disbursed to the designated recipient organization.⁴⁸ Since 1982, when the commemorative coin program was restarted, the U.S. Mint has raised more than \$506 million in surcharges for various designated recipient groups.⁴⁹ Production costs for each commemorative coin can differ based on design, administrative costs, and metals used. For example, **Table 4** shows how the U.S. Mint calculated surcharges for a commemorative coin for the 2007 Benjamin Franklin Commemorative Coin.⁵⁰

Table 4. Example Calculation of Commemorative Coin Surcharge Payments

	Benjamin Franklin
REVENUE	\$20,348,835
COST OF GOODS SOLD	
Manufacturing and Assembling	\$7,576,163
Order Fulfillment	\$549,513
Total Cost of Goods Sold	\$8,125,676
RESULTS BEFORE SELLING, GENERAL & ADMINISTRATIVE	\$12,223,159
Selling, General & Administrative	
Promotional	\$1,000,000
Travel	\$2,290
General & Administrative & Marketing	\$2,529,656

⁴⁷ *Surcharge Recipient Manual*, p. 1. The “Schedule of Funds Raised From Private Sources,” documentation must be audited pursuant to U.S. Mint guidelines and be accompanied by “a written assertion by its Chief Executive Officer (CEO) or Chief Financial Officer (CFO) that it has met the compliance requirements of the CCRA and specific enabling legislation.” The assertion must include the amount of qualifying funds received; that private funds raised are “for the purposes described in the enabling legislation”; and that “none of the qualifying funds raised from private sources have been used to compensate, directly or indirectly, any agent or attorney for services rendered to support or influence in any way legislative actions of Congress relating to numismatic coin activity [pursuant to P.L. 104-208, §529].” For more information, see *Surcharge Recipient Manual*, p. 5. The Mint’s *Surcharge Recipient Manual* does not specify whether or not a recipient organization may include borrowed money in its demonstration of qualified matching funds (p. 4).

⁴⁸ 31 U.S.C. 5134 (f)(1)(A)(i). The provision reads: “Notwithstanding any other provision of law, no amount derived from the proceeds of any surcharge imposed on the sale of any numismatic item shall be paid from the fund to any designated recipient organization unless- (i) all numismatic operation and program costs allocable to the program under which such numismatic item is produced and sold have been recovered.... ”

- b. “P.L. 104-208 requires the United States Mint to recover all allocable operation and program costs prior to the release of surcharge funds. The United States Mint will reduce the surcharge payment to recover these costs as necessary.” For more information, see Department of the Treasury, U.S. Mint, *FY2007 1st Quarter Financial Report of the United States Mint Commemorative Coin Programs*, p. 6, at <http://www.usmint.gov/downloads/foia/ccra2007q1.pdf>.
- c. As required by P.L. 104-208, §529.

Issues for Congress

As Members of Congress contemplate introducing legislation, and the House or the Senate potentially considers commemorative coin measures, there are several issues that could be considered. These can be divided into issues for individual Members of Congress with respect to individual coins, and issues for Congress as an institution. Individual issues include choices Member may make about which people, places, events, or institutions might be honored; which groups might receive surcharge payments; and whether specific design elements might be required for a proposed coin. Institutional issues might include committee or chamber rules on the consideration of commemorative coins and the limit on the number of commemorative coins minted per year.

Individual Considerations

Groups and Events Honored

Some commemorative coin programs are more popular than others. For example, since the commemorative coin program was restarted in 1982, the average commemorative coin program has sold approximately 1 million coins. The 1986 U.S. Statue of Liberty coins (15,491,169 coins) sold the most, while the 1997 Franklin Delano Roosevelt gold \$5 coin sold the fewest (41,368).⁵¹

⁵¹ Department of the Treasury, U.S. Mint, “Historical Commemorative Coin Sales,” at http://www.usmint.gov/about_the_mint/index.cfm?action=historical-commemorative-coin-sales.

The introduction of commemorative coin legislation often serves two purposes: to honor people, places, events, or institutions and to provide designated recipient groups with potential surcharge funds. These two purposes often go together. Since only two coins may be minted in a given year, Congress may face a ranking of which groups are honored at any given time. In making that decision, consideration might be given to coins that are likely to sell their authorized allotment and provide the designated recipient group with disbursed surcharges over coins that might be less popular and might not sell enough units to provide surcharges to the designated recipient group.

Alternatively, Congress could decide that a person, place, event, or institution merits a commemorative coin regardless of the potential sales of the coin. In this instance, the authorization for a coin might not expect that the allotment would be fully sold, but that the recognition provided by the coin was nevertheless desirable.

Disbursement of Surcharges

An important part of commemorative coin legislation is the designation of groups to receive potential surcharges from the coin sales. Often, when drafting legislation, Members have specific organizations in mind as recipients of potential surcharges. As that legislation is being drafted, however, Members face a choice of whether surcharges should be directed to a single group, or to more than one entity.

In order for a group to receive surcharge payments, it must go through two stages: (1) raise sufficient matching funds from private sources,⁵² and (2) be subject to annual audits on its use of surcharge payments.⁵³ Designated recipient groups are required to raise matching funds from private sources prior to the disbursement of surcharges. A group's ability to raise sufficient funds is a potentially important consideration. Should a group not raise sufficient private funds, the full surcharge payment for which they could be eligible might not be disbursed.

Authorizing legislation generally includes language about how the group might use surcharges. As shown in "Surcharges" above, these purposes are often broad. For example, the legislation that authorized the 1993 Thomas Jefferson Commemorative coin directed surcharges to two organizations: the Jefferson Endowment Fund and the Corporation for Jefferson's Poplar Forest.⁵⁴ Funds for the Jefferson Endowment Fund were to be used "to establish and maintain an endowment to be a permanent source of support for Monticello and its historic furnishings; and for the Jefferson Endowment Fund's educational programs, including the International Center for Jefferson Studies."⁵⁵ For the Corporation for Jefferson's Poplar Forest, funds were to be used for the "restoration and maintenance of Poplar Forest."⁵⁶

Once sufficient funds are raised and surcharges are disbursed, designated recipient groups are subject to an audit of surcharge payments.⁵⁷ Additionally, the surcharge payments must be "accounted for separately from all other revenues and expenditures of the organization."⁵⁸ These

⁵² 31 U.S.C. §5134(f)(1).

⁵³ 31 U.S.C. §5134(f)(2).

⁵⁴ P.L. 103-186, §108, 107 Stat. 2246, December 14, 1993.

⁵⁵ P.L. 103-186, §108(1).

⁵⁶ P.L. 103-186, §108(2). Poplar Forest was owned by Thomas Jefferson and is located in Forest, VA. For more information, see Thomas Jefferson's Poplar Forest, at <http://www.poplarforest.org>.

⁵⁷ 31 U.S.C. §5134(f)(2).

⁵⁸ 31 U.S.C. §5134(f)(2)(C).

audits are conducted “in accordance with generally accepted government auditing standards by an independent public accountant selected by the organization.”⁵⁹ Should a group not use payments properly, that information would likely be discovered by the required audit and could potentially result in a sanction, although no specific penalty is mentioned in law.

Specification of Design Elements

In some cases, commemorative coin authorizations have required the Mint to incorporate design elements beyond requirements for specific words (e.g., “Liberty,” or “E Pluribus Unum”), the denomination (e.g., “one dollar”), or the year.⁶⁰ In these cases, the authorizing legislation specifically states the design element. For example, it was a sense of Congress that the National Baseball Hall of Fame commemorative coin was to be curved to look more like a baseball.⁶¹ Similarly, the 2018 Breast Cancer Awareness \$5 gold coin is to be minted using “pink gold.”⁶²

Should a Member wish to have a specific design element incorporated into a future commemorative coin, the authorizing legislation would likely need to contain that language either as a sense of Congress or as part of the coin specification section. Including language that would require a certain design element would likely ensure that the Member’s vision for the commemorative coin would be incorporated into the design and minting process. Such specification, however, could serve to limit design choice for the commemorative coin and might alter the cost structure of striking a coin, if the required element diverges from standard coin-minting practices.⁶³

Institutional Considerations

Requirements for Legislative Consideration

As discussed above under “Consideration of Legislation in Congress,” neither House nor Senate rules provide any restrictions specifically concerning consideration of commemorative coin legislation on the House or Senate floor.⁶⁴ The Senate Committee on Banking, Housing, and Urban Affairs, however, does have a committee rule that requires that at “least 67 Senators must cosponsor any ... commemorative coin bill or resolution before consideration by the Committee.”⁶⁵ Currently, the House Financial Services Committee has not adopted any specific

⁵⁹ 31 U.S.C. §5134(f)(2)(A). For example, the Government Accountability Office (GAO) found that the Thomas Jefferson Memorial Foundation received surcharges and had deposited them in proper accounts, but had not yet spent any surcharge funds. For more information, see U.S. Government Accountability Office, *Jefferson Memorial Foundation Commemorative Coin Program*, B-276273, July 18, 1997, at <http://www.gao.gov/assets/90/86670.pdf>.

⁶⁰ 31 U.S.C. §5112(d)(1).

⁶¹ P.L. 112-152, §3(d), 126 Stat. 1156, August 3, 2012.

⁶² P.L. 114-148, §3(a)(1)(B), 130 Stat. 362, April 29, 2016.

⁶³ For example, see discussion on the size of precious-metal blanks for the 2014 National Baseball Hall of Fame commemorative coin that accompanied P.L. 113-10 (127 Stat. 445, May 17, 2013), at “National Baseball Hall of Fame Commemorative Coin Act Amendment,” *Congressional Record*, vol. 159, daily edition (April 24, 2013), pp. H2260-H2261.

⁶⁴ This stands in contrast to a House Rules provision (Rule XII, clause 5) that prohibits the introduction or consideration of date-specific commemorative legislation. For more information on House Rule XII, clause 5, see CRS Report R43539, *Commemorations in Congress: Options for Honoring Individuals, Groups, and Events*, coordinated by (name redacted)

⁶⁵ “Committee on Banking, Housing, and Urban Affairs,” *Congressional Record*, daily edition, vol. 161 (January 27, 2015), pp. S538-S539.

rules concerning committee consideration of commemorative coin legislation, although it has required a minimum number of cosponsors in past Congresses.⁶⁶

As demonstrated by the discontinuation of the House Financial Services Committee rule requiring a minimum number of cosponsors for committee commemorative coin legislation, committee rules can be changed from Congress to Congress. Should the House want to place requirements on the consideration of commemorative coin legislation, the Financial Services Committee could readopt its former rule, or something similar. Adopting committee rules to require a minimum number of cosponsors might encourage bill sponsors to build support among Representatives for a commemorative coin bill to honor a specified group or event. Such a minimum requirement, however, could potentially limit the committee in the number or type of commemorative coin bills it considers.

Since only the Senate Committee on Banking, Housing, and Urban Affairs has a rule that imposes a formal qualification on the potential consideration of commemorative coin legislation, the possible path forward for a bill can be different within each chamber. Should the House, the Senate, or both want to adopt similar language for the consideration of commemorative coin legislation, such language could be incorporated into future committee rules, into House and Senate Rules, or into law. Taking steps to formally codify the commemorative coin consideration process might provide sponsors with a single process for coin consideration, which could make it easier for coin bills to meet minimum requirements for consideration across both the House and Senate. Such codification could also limit congressional flexibility and might result in fewer proposals or authorizations to comply with new standards.

Number of Coins Minted Per Year

In 1996, Congress limited the U.S. Mint to issuing two coins per year beginning in calendar year 1998.⁶⁷ This action was taken in response to the proliferation of commemorative coins authorized since the program was restarted in 1982.⁶⁸ Should Congress want to increase or decrease the maximum number of commemorative coins minted per year, the law could be amended. Reducing the number of commemorative coins per year would also reduce the number of groups or events that might be commemorated and reduce the number of designated recipient groups that might be aided by the disbursement of coin surcharges. A decrease in the number of commemorative coins per year, however, could increase sales on authorized coins by reducing potential competition among coin programs.

Should Congress desire to increase the number of coins, more people, places, events, or institutions could potentially be honored, and a larger variety of designated recipient groups might receive surcharges from the U.S. Mint. Authorizing additional commemorative coin programs, however, could increase the number of commemorative coins available and reintroduce problems associated with competition among commemorative coin programs and result in a proliferation of coins on the market at any given time. Such a scenario might result in decreased surcharge disbursement opportunities for individual designated recipient groups.

⁶⁸ U.S. Congress, Senate, *The City of New York Tercentennial Commemorative Coin—Veto Message*, 83rd Cong., 2nd sess., February 3, 1954, S.Doc. 94 (Washington: GPO, 1954); and Q. David Bowers, *A Guide Book of United States Commemorative Coins* (Atlanta, GA: Whitman Publishing, 2008), p. 16.

Concluding Observations

Commemorative coins have long been a popular way to honor people, places, and events. Historically, commemorative coins were issued to celebrate state anniversaries, expositions, and event anniversaries, or to support the building of memorials. Coins were generally sold to sponsoring organizations, who then resold them to raise funds.⁶⁹ In the modern era, only two coins can be minted per year at the same time; according to the U.S. Commission of Fine Arts (CFA), the “range of subject matter [has] expanded to include subjects such as women, historical events, and even buildings and landscapes.”⁷⁰ Additionally, instead of selling coins to organizations to raise money, the concept of surcharges as a method to direct money to designated groups has been introduced.

As Congress considers the authorization of new coins to support designated recipient groups, consideration might be given to coins that could maximize sales and provide groups with the ability to earn as much money as possible for surcharges to support group activities. On the other hand, if Congress’s intent for a coin is to recognize a person, place, event, or institution, then smaller sales numbers might not factor into legislative decisionmaking. Some commemorations inherently have broader appeal than others and the sale of commemorative coins often reflects the popularity of a particular person, place, event, or institution to coin collectors and the broader general public.

To potentially maximize the appeal and sale of commemorative coins to support designated recipient organizations, Congress might consider whether the people, places, events, or institutions to be commemorated have a broad appeal and whether design elements might be specified that would make the coin more appealing to the general public. For example, the 1986 Statue of Liberty commemorative coin (shown in **Figure 2**) sold over 15 million units, while other coins have sold as few as approximately 40,000. For a designated recipient organization to earn surcharges, the U.S. Mint’s production costs must be recouped before payments can be made. As a result, coins that sell out of statutory allotments are more likely to generate significant surcharges than those that struggle to find a market beyond commemorative coin collectors.

Similarly, on at least two occasions, Congress has provided specific requirements to the U.S. Mint on the design of commemorative coins—that the 2014 National Baseball Hall of Fame coin be curved to represent a baseball and that the 2018 National Breast Cancer Awareness coin be tinted pink, to reflect the color associated with breast cancer awareness efforts. Evidence from the coin collecting community suggests that a coin with unique design features may be more attractive for coin collectors and non-collectors alike. For example, a coin-collecting publication reported that the National Baseball Hall of Fame coin was so popular that the U.S. Mint had difficulty meeting demand for orders, especially because it was the “first U.S. coin to utilize this [curved or dish design] production method and with a baseball theme, [it] ended up being a homerun with collectors.”⁷¹

The goal of commemorative coins is twofold: to commemorate a person, place, event, or institution *and* to provide surcharges to groups. As Congress considers future commemorative

coins, the ability to appeal to broad segments of the population to purchase coins in support of designated recipient groups might be a consideration. If Congress considers what people, places, events, or institutions might be honored and the coins' designs, the commemorative coin program could create innovative designs that raise significant monies for designated recipient groups. Since not all people, places, events, or institutions have the same appeal to the general public, consideration of which might be the best subject of commemorative coins would ensure that the U.S. Mint dedicates its resources to coins that are more likely to sell out authorized allotments and provide maximum surcharge payments. Alternatively, Congress could recognize important people, places, events, or institutions with a coin without consideration of the potential surcharges. In this case, historically important people, places, events, or institutions could be recognized by the United States regardless of potential amounts raised for these groups.

Appendix A. Historical Commemorative Coins

Between 1892 and 1954, 60 commemorative coins were authorized by Congress. **Table A-1** provides a list of these coins organized by the year in which they were struck by the mint. The table also includes the type of coin, the subject, and the authorization statute.

Table A-1. Historical Commemorative Coins, 1892-1954

Year(s) Issued	Type(s)	Subject	Authorization
1951-54	Half-Dollar	George Washington Carver & Booker T. Washington	65 Stat. 334
1946-51	Half-Dollar	Booker T. Washington Memorial	60 Stat. 863
1946	Half-Dollar	Iowa Centennial	60 Stat. 864
1938	Half-Dollar	New Rochelle, New York	49 Stat. 1259
1937	Half-Dollar	Roanoke Island, North Carolina	49 Stat. 1911
1937	Half-Dollar	Battle of Antietam	50 Stat. 306
1936	Half-Dollar	York County, Maine Tercentennial	49 Stat. 1973
1936	Half-Dollar	Wisconsin Territorial Centennial	49 Stat. 1276
1936	Half-Dollar	Robinson-Arkansas Centennial	49 Stat. 1981
1936	Half-Dollar	Providence, Rhode Island Tercentennial	49 Stat. 165
1936	Half-Dollar	Norfolk, Virginia Bicentennial	50 Stat. 322
1936	Half-Dollar	Lynchburg, Virginia Sesquicentennial	49 Stat. 1387
1936	Half-Dollar	Long Island Tercentennial	49 Stat. 1205
1936	Half-Dollar	Battle of Gettysburg	49 Stat. 1524
1936	Half-Dollar	Elgin, Illinois Centennial	49 Stat. 1523
1936	Half-Dollar	Delaware Tercentennial	49 Stat. 1352
1936	Half-Dollar	Columbia, South Carolina Sesquicentennial	49 Stat. 1165
1936	Half-Dollar	Cleveland Great Lakes Exposition	49 Stat. 1257
1936	Half-Dollar	Cincinnati Music Center	49 Stat. 1187
1936	Half-Dollar	Bridgeport, Connecticut Centennial	49 Stat. 1277
1936	Half-Dollar	Bay Bridge San Francisco-Oakland	49 Stat. 1972
1936	Half-Dollar	Albany, New York Charter	49 Stat. 1522
1935-36	Half-Dollar	San Diego-California-Pacific Exposition	49 Stat. 174
1935	Half-Dollar	Old Spanish Trail	49 Stat. 324
1935	Half-Dollar	Hudson, New York Sesquicentennial	49 Stat. 165
1935	Half-Dollar	Connecticut Tercentennial	48 Stat. 1200
1935-39	Half-Dollar	Arkansas Centennial	49 Stat. 776
1934-38	Half-Dollar	Texas Centennial	48 Stat. 149
1934	Half-Dollar	Maryland Tercentennial	48 Stat. 679
1934-38	Half-Dollar	Daniel Boone Bicentennial	48 Stat. 807
1928	Half-Dollar	Hawaiian Sesquicentennial	45 Stat. 198

Year(s) Issued	Type(s)	Subject	Authorization
1927	Half-Dollar	Vermont Sesquicentennial (Bennington)	43 Stat. 966
1926	Quarter Eagle	Sesquicentennial of American Independence	43 Stat. 1254
1926	Half-Dollar	Sesquicentennial of American Independence	43 Stat. 1254
1926, 1928, 1933-34, 1936-39	Half-Dollar	Oregon Trail Memorial	44 Stat. 559
1925	Half-Dollar	Fort Vancouver Centennial	43 Stat. 966
1925	Half-Dollar	Stone Mountain Memorial	43 Stat. 23
1925	Half-Dollar	Lexington-Concord Sesquicentennial	43 Stat. 749
1925	Half-Dollar	California Diamond Jubilee	43 Stat. 965
1924	Half-Dollar	Huguenot-Walloon Tercentennial	42 Stat. 1287
1923	Half-Dollar	Monroe Doctrine Centennial	42 Stat. 1172
1922	Gold Dollar	Grant Memorial	42 Stat. 362
1922	Half-Dollar	Grant Memorial	42 Stat. 362
1921	Half-Dollar	Missouri Centennial	41 Stat. 1363
1921	Half-Dollar	Alabama Centennial	41 Stat. 595
1920-21	Half-Dollar	Pilgrim Tercentennial	41 Stat. 597
1920	Half-Dollar	Maine Centennial	41 Stat. 595
1918	Half-Dollar	Illinois Centennial	41 Stat. 594
1916-17	Gold Dollar	McKinley Memorial	39 Stat. 12
1915	Gold \$50 (Octagonal)	Panama-Pacific Exposition	38 Stat. 793
1915	Gold \$50 (Round)	Panama-Pacific Exposition	38 Stat. 793
1915	Quarter-Eagle	Panama-Pacific Exposition	38 Stat. 793
1915	Gold Dollar	Panama-Pacific Exposition	38 Stat. 793
1915	Half-Dollar	Panama-Pacific Exposition	38 Stat. 793
1904-05	Gold Dollar	Lewis and Clark Exposition	33 Stat. 178
1903	Gold Dollar (McKinley)	Louisiana Purchase Exposition	32 Stat. 446
1903	Gold Dollar (Jefferson)	Louisiana Purchase Exposition	32 Stat. 446
1900	Dollar	Lafayette	30 Stat. 1117
1893	Quarter Dollar	Queen Isabella	27 Stat. 586
1892-93	Half-Dollar	Columbian Exposition	27 Stat 389

Appendix B. Modern Commemorative Coins, 1982-1997

Between 1982 and 1997, 47 commemorative coins were authorized by Congress. **Table B-1** provides a list of these coins organized by the year in which they were struck by the Mint. The table also includes the coin's subject and authorizing statute. Coin denominations are not provided for modern commemorative coins because authorizing legislation generally provides for more than one denomination per commemorative coin series.

Table B-1. Commemorative Coins Prior to Annual Minting Limits, 1982-1997

Year	Commemorative Coin Subject	Authorizing Statute
1982	George Washington 250 th Anniversary	P.L. 97-104, 95 Stat. 1491, December 23, 1981
1983	Olympics (Los Angeles, CA) Discus Thrower	P.L. 97-220, 96 Stat. 222, July 22, 1982
1984	Olympics (Los Angeles, CA) Runners	P.L. 97-220, 96 Stat. 222, July 22, 1982
	Olympics (Los Angeles, CA) Coliseum	P.L. 97-220, 96 Stat. 222, July 22, 1982
1986	Statue of Liberty	P.L. 99-61, 99 Stat. 113, July 9, 1985
1987	U.S. Constitution Bicentennial	P.L. 99-582, 100 Stat. 3315, October 29, 1986
1988	Olympics (Seoul, South Korea)	P.L. 100-141, 101 Stat. 832, October 28, 1987
1989	Congress Bicentennial	P.L. 100-673, 102 Stat. 3992, November 17, 1988
1990	Eisenhower Centennial	P.L. 100-467, 102 Stat. 2275, October 3, 1988
1991	Mount Rushmore Golden Anniversary	P.L. 101-332, 104 Stat. 313, July 16, 1990
	Korean War Memorial	P.L. 101-495, 104 Stat. 1187, October 31, 1990
	USO 50 th Anniversary	P.L. 101-404, 104 Stat. 875, October 2, 1990
1992	Olympics (Albertville, France and Barcelona, Spain)	P.L. 101-406, 104 Stat. 879, October 3, 1990
	White House 200 th Anniversary	P.L. 102-281, 106 Stat. 133, May 13, 1992
	Christopher Columbus Quincentenary	P.L. 102-281, 106 Stat. 139, May 13, 1992
1993	James Madison and the Bill of Rights	P.L. 102-281, 106 Stat. 145, May 13, 1992
	World War II 50 th Anniversary	P.L. 102-414, 106 Stat. 2106, October 14, 1992
1994	World Cup USA Tournament	P.L. 102-281, 106 Stat. 135, May 13, 1992
	Thomas Jefferson 250 th Anniversary	P.L. 103-186, 107 Stat. 2245, December 14, 1993
