www.crs.gov

RL32794

Summary

Pursuant to House Rule X, clause 6, the Committee on House Administration reports an omnibus, biennial “primary expense resolution” to cover the expenses of each standing and select committee, except the Appropriations Committee. The resolution is based, in part, on committee requests for funds to cover their necessary expenses for the two years of a Congress.

This report provides committee funding requests and authorizations as adopted pursuant to primary expense authorizations for House committees in the 104th through 114th Congresses. For further information on the committee funding process, see CRS Report R42778, *House Committee Funding: Description of Process and Analysis of Disbursements*, by Matthew Glassman.

House Committee Funding Process

Pursuant to House Rule X, clause 6, the Committee on House Administration (CHA) reports an omnibus, biennial “primary expense resolution” to cover the expenses of each standing and select committee, except the Appropriations Committee.¹ The resolution is based in part on committee requests for funds to cover their necessary expenses for the two years of a Congress. The budgetary requests include estimated salary needs for staff, costs of consulting services, printing costs, office equipment and supply costs, and travel costs for committee members and staff. Some costs, such as pension and insurance contributions for committee employees, are paid from other appropriated funds, and are excluded from committee budgets.

Some committees discuss and approve their proposed budgets at committee organization meetings. Committee chairs normally introduce House resolutions to provide their committees with the requisite funds for the two years of the Congress. These individual resolutions are then referred to the Committee on House Administration, which holds public hearings on each committee’s request. The chair and the ranking minority member from each committee typically testify at these hearings.²

The chair of CHA then typically introduces an omnibus funding resolution, which, after its referral to the CHA, typically serves as the legislative vehicle for a full committee markup. The measure is then considered by the House.

Table 1 through **Table 11** provide committee funding requests and primary expense resolution authorizations in nominal dollars for House committees in the 104th-114th Congresses. **Table 12** through **Table 21** provide the authorization levels, calculated in constant (January 2015) dollars, for the 104th-113th Congresses. All tables calculate the absolute and percentage difference between the total requested and total authorized funding levels.

¹ P.L. 79-601, Legislative Reorganization Act of 1946, Section 202(b), 60 Stat. 834, grants the Committee on Appropriations authorization to appropriate funds for its own activities.

EveryCRSReport.com

The Congressional Research Service (CRS) is a federal legislative branch agency, housed inside the Library of Congress, charged with providing the United States Congress non-partisan advice on issues that may come before Congress.

EveryCRSReport.com republishes CRS reports that are available to all Congressional staff. The reports are not classified, and Members of Congress routinely make individual reports available to the public.

Prior to our republication, we redacted names, phone numbers and email addresses of analysts who produced the reports. We also added this page to the report. We have not intentionally made any other changes to any report published on EveryCRSReport.com.

CRS reports, as a work of the United States government, are not subject to copyright protection in the United States. Any CRS report may be reproduced and distributed in its entirety without permission from CRS. However, as a CRS report may include copyrighted images or material from a third party, you may need to obtain permission of the copyright holder if you wish to copy or otherwise use copyrighted material.

Information in a CRS report should not be relied upon for purposes other than public understanding of information that has been provided by CRS to members of Congress in connection with CRS' institutional role.

EveryCRSReport.com is not a government website and is not affiliated with CRS. We do not claim copyright on any CRS report we have republished.
