# Status of FY2022 Labor, Health and Human Services, and Education Appropriations: In Brief

**R46853**

September 1, 2022

**Karen E. Lynch**  
Specialist in Social Policy

**Jessica Tollestrup**  
Specialist in Social Policy

This report provides a brief summary of the status of FY2022 appropriations for the Departments of Labor, Health and Human Services, and Education, and Related Agencies (LHHS) as of the cover date of this report. It also provides background on the scope of the LHHS bill generally and the budgetary context for congressional decisionmaking, including the submission of the FY2022 President's budget request, budget enforcement in the absence of statutory discretionary spending limits, and the supplemental appropriations provided as part of the legislative response to the COVID-19 pandemic.

Full-year FY2022 appropriations for LHHS were enacted on March 15, 2022, when the Consolidated Appropriations Act, 2022 (FY2022 omnibus; H.R. 2471; P.L. 117-103) was signed into law by the President. Prior to its enactment, the final version of the measure was approved by the House on March 9. (The vote to approve the portion that contained LHHS appropriations was 260-171.) It was approved by the Senate (68-31) on March 10.

Previously, FY2022 LHHS appropriations were temporarily provided by a series of continuing resolutions (CRs). The first CR (Division A of H.R. 5305; P.L. 117-43) extended funding through December 3, 2021. The second CR (Division A of H.R. 6119; P.L. 117-70), extended funding through February 18, 2022. The third CR (Division A of H.R. 6617; P.L. 117-86) extended funding through March 11, 2022. The fourth CR (H.J.Res. 75; P.L. 117-95) extended funding through March 15, 2022.

With regard to House action on full-year appropriations, FY2022 LHHS appropriations were passed by the House on initial consideration (219-208) on July 29, 2021 (Division A, H.R. 4502). Previously, on July 15, 2021, the House Appropriations Committee voted (33-25) to report the LHHS bill; the measure was subsequently reported to the House on July 19, 2021 (H.R. 4502; H.Rept. 117-96). The committee reported its initial suballocations for all 12 appropriations bills, including LHHS, on July 1, 2021 (H.Rept. 117-78).

While the Senate Appropriations Committee did not vote to report its version of the legislation prior to the enactment of FY2022 full-year appropriations, the committee chair, Senator Leahy, released a majority draft of the LHHS bill and accompanying draft report language on October 18, 2021.

In addition, five bills have been signed into law providing LHHS emergency-designated appropriations for FY2022:

- Divisions A and C of the Extending Government Funding and Delivering Emergency Assistance Act (H.R. 5305; P.L. 117-43, September 30, 2021) provided a total of \$4.2 billion for HHS spending related to shelter and support services for unaccompanied minors (Division A), and public health and support services for Afghan arrivals and refugees (Division C);
- Division J of the Infrastructure Investment and Jobs Act (H.R. 3684; P.L. 117-58, November 15, 2021) provided \$100 million in FY2022 for the HHS Low Income Home Energy Assistance Program, and rescinded \$353 million in previously enacted emergency funding from the Education Stabilization Fund;
- Division B of the Further Extending Government Funding Act (H.R. 6119; P.L. 117-70, December 3, 2021) provided a total of \$1.3 billion for public health and support services for Afghan arrivals and refugees;
- Title IV of the Additional Ukraine Supplemental Appropriations Act, 2022 (H.R. 7691; P.L. 117-128, May 21, 2022) provided a total of \$1.0 billion to HHS agencies, mostly for resettlement assistance for eligible Ukrainians in the United States; and
- Division B of the Bipartisan Safer Communities Act (S. 2938; P.L. 117-159, June 25, 2022) provided a total of \$1.6 billion in FY2022 for several programs within HHS and ED related to community mental and behavioral health services, pediatric health care, school attendance and engagement, and school-based mental health services.

-------------------------	----

Full year FY2022 appropriations for LHHS were enacted on March 15, 2022, when the Consolidated Appropriations Act, 2022 (FY2022 omnibus; H.R. 2471, P.L. 117-103) was signed into law by the President. Previously, FY2022 LHHS appropriations had been temporarily provided by a series of continuing resolutions (P.L. 117-43, P.L. 117-70, P.L. 117-86, and P.L. 117-95). This report provides a brief summary of the status of LHHS appropriations during the FY2022 cycle, including relevant congressional actions and a top-line comparison of discretionary funding enacted in FY2021 and FY2022, versus relevant FY2022 legislative proposals. It also provides background on the scope of the bill and the context for congressional decisionmaking. In addition, it summarizes the FY2022 LHHS emergency-designated appropriations enacted in P.L. 117-43, P.L. 117-58, P.L. 117-70, P.L. 117-128, and P.L. 117-159. For a more detailed analysis of the FY2022 LHHS bill, see CRS Report R47029, *Labor, Health and Human Services, and Education: FY2022 Appropriations*.

Congressional clients may consult the LHHS experts list in CRS Report R42638, *Appropriations: CRS Experts*, for information on which analysts to contact at the Congressional Research Service (CRS) with questions on specific agencies and programs funded in the LHHS bill.

## Scope of the LHHS Bill

The LHHS bill is the largest (\$1.3 trillion in 2022) of the 12 annual appropriations bills when accounting for both mandatory and discretionary funding.<sup>1</sup> It provides annually appropriated budget authority for the following federal departments and agencies:

- the Department of Labor (DOL);
- most agencies at the Department of Health and Human Services (HHS), except for the Food and Drug Administration (funded through the Agriculture appropriations bill), the Indian Health Service (funded through the Interior-Environment appropriations bill), and the Agency for Toxic Substances and Disease Registry (funded through the Interior-Environment appropriations bill);
- the Department of Education (ED); and
- more than a dozen related agencies (RA), including the Social Security Administration (SSA), the Corporation for National and Community Service, the Corporation for Public Broadcasting, the Institute of Museum and Library Services, the National Labor Relations Board, and the Railroad Retirement Board.

In general, mandatory funding represents just over 80% of the total LHHS bill, supporting annually appropriated entitlements such as Medicaid and Supplemental Security Income (SSI). Discretionary funds, which account for less than 20% of total funds in the bill, tend to be the focus of congressional debate during the appropriations process.<sup>2</sup> This is because the appropriations process generally has little control over the amount of mandatory funding provided

---

<sup>1</sup> See the FY2022 Joint Explanatory Statement for LHHS in *Congressional Record*, daily edition, vol. 168, no. 42, book iv (March 9, 2022), p. H2915. The discretionary funding provided in the LHHS appropriations act is both provided and controlled by that act. The mandatory funding provided in the LHHS act is controlled by provisions in authorizing law. For definitions of these and other budget terms, see U.S. Government Accountability Office (GAO), A Glossary of Terms Used in the Federal Budget Process, GAO-05-734SP, September 1, 2005, <http://www.gao.gov/products/GAO-05-734SP>. (Terms of interest may include budget authority, appropriated entitlement, direct spending, discretionary, entitlement authority, and mandatory.)

<sup>2</sup> For an illustrative discussion of the distribution of funds among the different titles of the bill, and between discretionary and mandatory spending, see the summary of FY2022 LHHS appropriations in CRS Report R47029, *Labor, Health and Human Services, and Education: FY2022 Appropriations*, pp. 11-14.

for appropriated entitlements; rather, the authorizing statute controls the program parameters (e.g., eligibility rules, benefit levels) that entitle certain recipients to payments. Consequently, the focus of this report generally is on the discretionary spending that has been or would be provided for LHHS programs and activities under various laws and proposals.

Even though discretionary appropriations represent a relatively small share of the entire LHHS bill, the bill is typically the largest single source of nondefense discretionary funding for the federal government. (The Department of Defense bill is the largest single source of discretionary funding overall.)

### Calculating Total LHHS Budget Authority

*Budget authority* is the amount of money a federal agency is legally authorized to commit or spend. Appropriations bills may include budget authority that becomes available in the current fiscal year, in future fiscal years, or some combination. Amounts that become available in future fiscal years are typically referred to as *advance appropriations*.

The amount of LHHS budget authority can be tabulated in various ways. The total amount of budget authority provided in an appropriations bill (i.e., *total in the bill*) would be calculated regardless of the year in which the funding becomes available.<sup>3</sup> In some cases, however, such as the 302(b) suballocations (discussed later), the total is calculated based on *current-year appropriations* (i.e., the amount of *budget authority available for obligation in a given fiscal year*), which is calculated regardless of the year in which it was first appropriated.<sup>4</sup> Additionally, budgetary totals may or may not include Congressional Budget Office (CBO) scorekeeping and other adjustments to reflect budget enforcement conventions and special instructions of Congress.<sup>5</sup>

## Context for FY2022

Under the congressional budget process, congressional consideration of annual appropriations traditionally is preceded by the submission of the President's budget request and the adoption of the congressional budget resolution. However, the FY2022 cycle has been affected by a number of timing and budgetary issues related to the ongoing COVID-19 pandemic, the presidential transition, and a lack of statutory discretionary spending limits for the first time in a decade. Background related to these issues is provided below.

## COVID-19 Pandemic Supplemental Appropriations for FY2020 and FY2021

Subsequent to the enactment of annual FY2020 LHHS appropriations and the submission of the President's FY2021 budget, the effects of the COVID-19 pandemic on communities across the world and throughout the United States elicited a legislative response from Congress and the President.

<sup>3</sup> Such figures include advance appropriations provided in the bill for future fiscal years, but do not include advance appropriations provided in prior years' appropriations bills that become available in the current year.

<sup>4</sup> Such figures exclude advance appropriations for future years, but include advance appropriations from prior years that become available in the given fiscal year.

<sup>5</sup> For more information on scorekeeping, see CRS Report 98-560, *Baselines and Scorekeeping in the Federal Budget Process*. See also a discussion of key scorekeeping guidelines included in the joint explanatory statement accompanying the conference report to the Balanced Budget Act of 1997 (H.Rept. 105-217, pp. 1007-1014).

## FY2020 Supplemental Appropriations

In the first months of the pandemic, four FY2020 supplemental appropriations were part of this legislative response:<sup>6</sup>

- Title III, Division A, of the Coronavirus Preparedness and Response Supplemental Appropriations Act, 2020 (P.L. 116-123), enacted on March 6, 2020, provided approximately \$6.4 billion in supplemental LHHS funds<sup>7</sup>;
- Title V, Division A, of the Families First Coronavirus Response Act (FFCRA, P.L. 116-127), enacted on March 18, 2020, provided \$1.25 billion in supplemental LHHS funds;
- Title VIII, Division B, of the Coronavirus Aid, Relief, and Economic Security Act (CARES Act, P.L. 116-136), enacted on March 27, 2020, provided \$172.1 billion in supplemental LHHS funds; and
- Title I, Division B, of the Paycheck Protection Program and Health Care Enhancement Act (PPPHEA, P.L. 116-139), enacted on April 24, 2020, provided \$100 billion in supplemental LHHS funds.

In total, FY2020 supplemental appropriations increased regular FY2020 LHHS enacted funding by about 143%. The bulk of the supplemental funding (89%) was directed at HHS. Supplemental HHS funds totaled \$248 billion and represented a 261% increase over the agency's FY2020 regular appropriations funding level. ED received the next largest increase via supplemental funds (43%), whereas the DOL and RA received the smallest increases relative to their initial FY2020 enacted levels (5% and 3%, respectively).

All of these additional funds were designated as an *emergency requirement* and thus were effectively exempted from otherwise applicable budget enforcement requirements, such as the discretionary spending limits.<sup>8</sup> (See “FY2022 Discretionary Spending Levels and Appropriations Allocations” for a further explanation of this issue.)

## Supplemental Appropriations for FY2021 and Context for FY2022

While annual appropriations for FY2021 were under discussion during the summer and fall of 2020, Congress and President Trump considered whether any additional COVID-19 response funding should be enacted.<sup>9</sup> Ultimately, the same law (P.L. 116-260) that provided regular annual LHHS appropriations for FY2021 in Division H also provided FY2021 supplemental discretionary appropriations in Division M. This law, which was enacted on December 27, 2020,

<sup>6</sup> Other divisions of the acts that provided supplemental LHHS appropriations contained authorization provisions that in some cases relate to LHHS programs and activities—for instance, provisions providing a 6.2% increase to the federal matching assistance percentage for Medicaid and certain other programs in FFCRA, and provisions modifying student loan subsidy costs in the CARES Act. For further information on the LHHS appropriations provided by these COVID-19 supplementals, see CRS Report R46353, *COVID-19: Overview of FY2020 LHHS Supplemental Appropriations*.

<sup>7</sup> Of the amount shown for P.L. 116-123, \$300 million (appropriated to the Public Health and Social Services Emergency Fund at HHS) was contingent upon future HHS actions.

<sup>8</sup> For further information, see CRS Report R45778, *Exceptions to the Budget Control Act's Discretionary Spending Limits*.

<sup>9</sup> Prior to the enactment of full-year FY2021 LHHS funding, COVID-19-related LHHS provisions were proposed in several different appropriations measures for FY2021, including the House-passed full-year LHHS bill (Division E, H.R. 7617), a supplemental appropriations package (Division A, H.R. 925), and the FY2021 continuing resolution (Division A, P.L. 116-159). While in some cases the budgetary effects of the COVID-19-related provisions were designated as an emergency requirement, this was not the case universally.

provided a total of \$154.9 billion in supplemental LHHS funds, all of which were designated as an emergency requirement (Title III, Division M). This funding was split roughly equally between HHS (47%) and ED (53%). (None was enacted for DOL or RAs.) The ED supplemental funding budgetary increase of \$82 billion was 112% of its FY2021 regular appropriations. HHS regular appropriations were increased by 75% (+\$73 billion).<sup>10</sup>

The FY2020 and FY2021 supplemental funding was in many cases provided to LHHS accounts and activities that also received annual appropriations. Although this funding was generally for COVID-19-related response efforts, some of these efforts could include expanding basic infrastructure and capacity that would otherwise have been unfunded (or funded through annual appropriations had the supplemental funding not been available).

Congress has debated whether additional emergency-designated funds are needed to address the COVID-19 pandemic or for other purposes. For instance, in March 2022 the White House submitted a request for supplemental funds related to COVID-19 and for other purposes.<sup>11</sup> While the FY2022 omnibus was originally proposed to carry additional supplemental LHHS appropriations related to COVID-19 in Division M, this division was ultimately omitted from the bill prior to floor consideration.<sup>12</sup> In addition, emergency-designated LHHS funding for FY2022 (totaling about \$8 billion) has been provided for purposes that are generally unrelated to COVID-19 pandemic response. (See “FY2022 Emergency-Designated Appropriations” for a summary of these.)

## Timing of the FY2022 President’s Budget Submission

The President’s budget request for the upcoming fiscal year is due to be submitted to Congress by the first Monday in February. However, the FY2022 budget was submitted during a year in which a presidential transition occurred (on January 20, 2021). Recent Presidents have not submitted detailed budget proposals until April or May of their first year in office, although each has advised Congress regarding the general contours of their economic and budgetary policies in special messages submitted to Congress prior to that submission.<sup>13</sup> This delay allowed time to prepare a proposal that reflects the priorities of the new Administration.

On April 9, 2021, President Biden submitted to Congress an outline of his discretionary funding priorities for FY2022.<sup>14</sup> This preliminary document provided early highlights for numerous policy areas, including several funded in the LHHS bill. The full budget request was submitted on May 28, almost four months after its due date.<sup>15</sup> As a result, the start of annual appropriations decisionmaking for FY2022 also was delayed to allow time for Congress to consider this request.

<sup>10</sup> For further information, see CRS Report R46775, *Overview of COVID-19 LHHS Supplemental Appropriations: FY2020 and FY2021*.

<sup>11</sup> Letter from Shalanda D. Young, Acting Director of the Office of Management and Budget, to the Honorable Nancy Pelosi, Speaker of the House of Representatives, March 2, 2022, <https://www.whitehouse.gov/wp-content/uploads/2022/03/COVID-and-Ukraine-Supplemental-Funding-Request-Pelosi.pdf>. (Identical letters were sent to other recipients.)

<sup>12</sup> For a summary of the funding that would have been contained in Division M, see the Senate Appropriations Committee majority, *Summary of Emergency Supplemental Funding to Continue Efforts to Combat COVID*, March 9, 2022, <https://www.appropriations.senate.gov/imo/media/doc/COVID%20Supp%20Summary.pdf>.

<sup>13</sup> See CRS Insight IN11655, *Budget Submission After a Presidential Transition: Contextualizing the Biden Administration’s FY2022 Request*.

<sup>14</sup> Office of Management and Budget (OMB), *The President’s FY2022 Discretionary Request*, April 9, 2021, <https://www.whitehouse.gov/omb/fy-2022-discretionary-request/>.

<sup>15</sup> See <https://www.whitehouse.gov/omb/budget/>.

Later in the fiscal year, in March 2022, the President submitted a supplemental budget request for emergency-designated funds to provide assistance to Ukraine and for “near-term prevention and response activities to address SARS-CoV-2, its future variants, and the COVID-19 disease.”<sup>16</sup>

## FY2022 Discretionary Spending Levels and Appropriations Allocations

For the decade prior to FY2022, the framework for discretionary spending budget enforcement under the congressional budget process involved both statutory and procedural elements. Those statutory elements included limits on defense and nondefense discretionary spending established by the Budget Control Act of 2011 (BCA; P.L. 112-25). LHHS appropriations are classified as nondefense spending, and the bill has the largest share of such spending compared to the other annual appropriations bills. The statutory limits on discretionary spending expired at the end of FY2021, and therefore did not restrict FY2022 appropriations. As a result, discretionary budget enforcement for FY2022 occurred via procedural means only.

The procedural elements of budget enforcement are primarily associated with the budget resolution. This provides a limit on total discretionary spending available to the appropriations committees (commonly referred to as a *302(a) allocation*) and allows the appropriations committees to create limits on spending under the jurisdiction of each appropriations subcommittee (*302(b) suballocations*). Certain spending is effectively exempt from these limits (commonly referred to as *adjustments* to those limits). In recent years, adjustments that have been applied to LHHS appropriations are for *emergency requirements*, to accommodate new budget authority for specified program integrity initiatives at HHS (*health care fraud and abuse control*) and the SSA (*continuing disability reviews and redeterminations*), and for DOL to fund *reemployment services and eligibility assessments* conducted by the states related to unemployment compensation.<sup>17</sup>

A FY2022 budget resolution was agreed to by the House and the Senate. S.Con.Res. 14 was adopted by the Senate on August 11, 2021, and by the House (without amendment) on August 24. To provide for 302(a) allocations associated with S.Con.Res. 14, Section 4006 of the budget resolution provided the Chair of the Senate Budget Committee the authority to enter into the *Congressional Record* allocations consistent with the levels in the budget resolution. Those levels were filed in the Senate on September 23.<sup>18</sup> Section 4006 provided similar authority to the Chair of the House Budget Committee and those allocations were filed on October 27.<sup>19</sup> In addition, S.Con.Res. 14 allowed adjustments to those allocations for emergency requirements, health care fraud and abuse control, continuing disability reviews and redeterminations, and reemployment services and eligibility assessments (as well as other purposes that do not apply to LHHS). With

---

<sup>16</sup> Letter from Shalanda D. Young, Acting Director of the Office of Management and Budget, to the Honorable Nancy Pelosi, Speaker of the House of Representatives, March 2, 2022, <https://www.whitehouse.gov/wp-content/uploads/2022/03/COVID-and-Ukraine-Supplemental-Funding-Request-Pelosi.pdf>. (Identical letters were sent to other recipients.)

<sup>17</sup> For further information, see CRS Report R45778, *Exceptions to the Budget Control Act's Discretionary Spending Limits*.

<sup>18</sup> “Publication of Budgetary Material,” *Congressional Record*, daily edition, Vol. 167, No. 165 (September 23, 2021), pp. S6667-S6668.

<sup>19</sup> “Publication of Budgetary Material,” *Congressional Record*, daily edition, Vol. 167, No. 189 (October 27, 2021), pp. H5956-H5957.

the exception of emergency requirements, all of these adjustments are subject to limits specified in S.Con.Res. 14.<sup>20</sup>

Generally, after the budget resolution has been approved by both chambers, the next step in the appropriations process is for each of the appropriations committees to adopt suballocations from the total amount allocated to them. These 302(b) suballocations provide a limit on current-year (in this case, FY2022) appropriations within each subcommittee's jurisdiction and incorporate any applicable scorekeeping adjustments made by CBO. Neither the House nor the Senate has filed 302(b) suballocations pursuant to the FY2022 budget resolution.

However, earlier in 2021, the House provided for budget enforcement in the absence of a budget resolution prior to initial floor consideration of the FY2022 appropriations measures by adopting a deeming resolution, H.Res. 467 on June 14, 2021.<sup>21</sup> This resolution provided for 302(a) allocations to the House Appropriations Committee at a specified level, provided limits on advance appropriations,<sup>22</sup> and allowed adjustments to those allocations for emergency requirements, health care fraud and abuse control, and continuing disability reviews and redeterminations (as well as other purposes that do not apply to LHHS).<sup>23</sup> Pursuant to this resolution, the Chair of the House Budget Committee, Representative Yarmuth, published in the *Congressional Record* the House Appropriations Committee allocations on June 24.<sup>24</sup> The House Appropriations Committee reported their initial 302(b) suballocations for all 12 subcommittees on July 1 (H.Rept. 117-78).<sup>25</sup> The discretionary budget authority suballocation for LHHS of \$237.466 billion represented a 36% (+\$63.4 billion) increase relative to FY2021. That amount did not include funding subject to adjustments, such as for emergency requirements.

## FY2022 LHHS Legislative Action

As described below, congressional action occurred on short-term appropriations in continuing resolutions (CRs) and supplemental appropriations prior to the enactment of full-year FY2022

<sup>20</sup> In addition, Section 4011 of S.Con.Res. 14 provided that the BCA cap adjustments (Section 251(b) of the Balanced Budget and Emergency Deficit Control Act) would not apply to allocations established pursuant to that resolution. Although the FY2022 adjustment for reemployment services and eligibility assessments pursuant to Section 314(g) of the Congressional Budget Act (CBA) continues to be in effect, the limit on that adjustment in the CBA is the same as that provided by S.Con.Res. 14 (\$133 million in additional new budget authority).

<sup>21</sup> For a discussion of budget enforcement through methods such as H.Res. 467, see CRS Report R44296, *Deeming Resolutions: Budget Enforcement in the Absence of a Budget Resolution*.

<sup>22</sup> *Advance appropriations* become available for obligation one or more fiscal years after the budget year covered by the appropriations act. The FY2022 LHHS appropriations act generally contains advance appropriations for FY2023 and FY2024 for certain programs and activities. For further information, see CRS Report R43482, *Advance Appropriations, Forward Funding, and Advance Funding: Concepts, Practice, and Budget Process Considerations*.

<sup>23</sup> H.Res. 467 further provided that the BCA cap adjustments (Section 251(b) of the Balanced Budget and Emergency Deficit Control Act) would not apply to allocations established pursuant to that resolution. However, the adjustment for reemployment services and eligibility assessments will continue to be in effect for FY2022 through FY2027 pursuant to Section 314(g) of the Congressional Budget Act, subject to specified limits.

<sup>24</sup> "Publication of Budgetary Material," *Congressional Record*, daily edition, Vol. 167, No. 110 (June 24, 2021), p. H3130.

<sup>25</sup> Suballocations are commonly adjusted through the appropriations cycle to account for changing priorities. For FY2022, the House Appropriations Committee reported revised suballocations on July 16 (H.Rept. 117-91) to incorporate the cap adjustments where applicable, but otherwise the suballocation for the LHHS subcommittee was the same as originally reported.

appropriations for LHHS on March 15, 2022. The legislative history of those full-year appropriations also is summarized.

## **FY2022 Consolidated Appropriations Act**

On March 15, 2022, the Consolidated Appropriations Act, 2022 (FY2022 omnibus; H.R. 2471) was signed into law by the President (P.L. 117-103). The FY2022 omnibus provided full-year appropriations for all 12 annual appropriations acts in Divisions A-L.<sup>26</sup> (Full-year LHHS appropriations were enacted in Division H.) Prior to its enactment, the final version of the measure was approved by the House on March 9. (The vote to approve the portion that contained LHHS appropriations was 260-171.)<sup>27</sup> The bill was approved by the Senate (68-31) on March 10. The FY2022 LHHS appropriations provided in the FY2022 omnibus are summarized in “FY2021 and FY2022 LHHS Discretionary Funding Levels.”

## **FY2022 Continuing Appropriations**

Between the start of FY2022 and the enactment of full-year annual appropriations, FY2022 LHHS appropriations were provided by a series of CRs. The first CR was signed into law on September 30, 2021 (Division A of H.R. 5305; P.L. 117-43). The measure had previously been introduced by the House Appropriations Committee chair, Representative DeLauro, on September 21, and was passed by the House that same day, 220-211. On September 30, the Senate took up and passed the measure with an amendment, 65-35,<sup>28</sup> which was subsequently agreed to by the House, 254-175.

The first CR provided continuing appropriations for all 12 annual appropriations acts (including LHHS) through December 3, 2021. In general, the CR funded discretionary programs at the same rate and under the same conditions as in FY2021 (§101) and annually appropriated entitlements at their current law levels (§111).<sup>29</sup> It also included several anomalies that are specific to LHHS accounts or related activities (§§138-149).

The second CR was enacted extending the provisions of the first CR with some additional anomalies (for LHHS, see Section 162) through February 18, 2022 (Division A of H.R. 6119; P.L. 117-70, December 3, 2021). The measure had previously been introduced by Representative DeLauro on December 2, and passed the House (221-212) and the Senate (69-28) that same day.

The third CR was enacted extending the provisions on the second CR with some additional anomalies (none of which were LHHS-related) through March 11, 2022 (Division A of H.R. 6617; P.L. 117-86, February 18, 2022). The measure had previously been introduced by

---

<sup>26</sup> The FY2022 omnibus was originally intended to carry additional supplemental appropriations related to the COVID-19 pandemic in Division M, but Division M was omitted prior to floor consideration.

<sup>27</sup> The special rule, H.Res. 973, provided for the consideration of an amendment consisting of the FY2022 omnibus (as contained in House Rules Committee Print 117-35) to the Senate amendment to H.R. 2471. H.Res. 973 also provided for the House to adopt the amendment in two votes: the first on Divisions B, C, F, X, Z, and Titles 2 and 3 of Division N; and the second on the remaining divisions and titles. The House adopted Divisions B, C, F, X, Z, and Titles 2 and 3 of Division N by a vote of 361-69, and adopted the remaining divisions and titles by a vote of 260-171. The subsequent motion that the House agree to the Senate amendment with an amendment was agreed to by a voice vote.

<sup>28</sup> No substantive changes were made by the Senate amendment to the CR provisions in Division A of H.R. 5305.

<sup>29</sup> For an estimate of the discretionary appropriations contained in Division A of H.R. 5305, see Table 1-H and 1-S in CBO Estimate for H.R. 5305, the Extending Government Funding and Delivering Emergency Assistance Act as Passed by the House of Representatives on September 21, 2021, <https://www.cbo.gov/system/files/2021-09/57491-CBO-Estimate-for-HR5305.pdf>.

Representative DeLauro on February 7. It passed the House (272-182) on February 8 and the Senate (65-27) on February 17.

The fourth CR was enacted extending the provisions of the third CR with some additional anomalies (not LHHS-related) through March 15, 2022 (H.J.Res. 75; P.L. 117-95, March 11, 2022). The measure had previously been introduced by Representative DeLauro on March 8. It passed the House (voice vote) on March 8 and the Senate (voice vote) on March 10.

## **FY2022 Emergency-Designated Appropriations**

Emergency designated appropriations are effectively exempt from otherwise applicable budget enforcement requirements, such as committee allocations, as described above. Five bills have been signed into law providing LHHS emergency-designated appropriations for FY2022:

- Divisions A and C of the Extending Government Funding and Delivering Emergency Assistance Act (H.R. 5305; P.L. 117-43, September 30, 2021) provided \$4.2 billion, as follows:<sup>30</sup>
  - Division A, which contained the first CR for FY2022, provided an additional \$2.5 billion in emergency-designated spending (§141) to the HHS Administration for Children and Families (ACF) for supporting shelter and services for unaccompanied minors referred to HHS, including funding to expand the capacity of state-licensed shelters;
  - Division C, which contained the Afghanistan Supplemental Appropriations Act, 2022, provided \$1.7 billion to ACF for resettlement and other support services for Afghan arrivals and refugees, and \$21.5 million to the HHS Centers for Disease Control and Prevention (CDC) for medical support, screening, and related public health activities for Afghan arrivals and refugees;
- Division J of the Infrastructure Investment and Jobs Act (H.R. 3684; P.L. 117-58, November 15, 2021) provided \$100 million in FY2022 for the HHS Low Income Home Energy Assistance Program,<sup>31</sup> and rescinded \$353 million in previously enacted emergency funding from the Education Stabilization Fund;
- Division B of the Further Extending Government Funding Act (H.R. 6119; P.L. 117-70, December 3, 2021), which contained the Additional Afghanistan Supplemental Appropriations Act, 2022,<sup>32</sup> provided \$8 million to the CDC for medical support, screening, and related public health activities for Afghan arrivals and refugees, and \$1.3 billion to ACF for resettlement and other support services for Afghan arrivals and refugees;
- Title IV of the Additional Ukraine Supplemental Appropriations Act, 2022 (H.R. 7691; P.L. 117-128, May 21, 2022) provided \$54 million to the CDC for medical support, screening, and related public health activities related to the situation in

---

<sup>30</sup> See the summary of these provisions from House Appropriations Committee majority staff, *H.R. 5305, Extending Government Funding and Delivering Emergency Assistance Act: Section-by-Section Summary*, [https://appropriations.house.gov/sites/democrats.appropriations.house.gov/files/documents/Summary\\_0.pdf](https://appropriations.house.gov/sites/democrats.appropriations.house.gov/files/documents/Summary_0.pdf).

<sup>31</sup> Division J of P.L. 117-58 further provided to the Low Income Home Energy Assistance Program advance appropriations of \$100 million for each of FY2023 through FY2026, for a total of \$500 million for the program with all fiscal years taken into account.

<sup>32</sup> See the summary of these provisions from the House Appropriations Committee majority staff, *H.R. 6119, Further Extending Government Funding Act Section-by-Section Summary*.

- Ukraine, including for populations displaced from Ukraine, and \$900 million to ACF for resettlement assistance for Ukrainian refugees, Ukrainian parolees, and other eligible Ukrainians in the United States; and
- Division B of the Bipartisan Safer Communities Act (S. 2938; P.L. 117-159, June 25, 2022) provided a total of \$1.6 billion in FY2022 for several programs within HHS and ED related to community mental and behavioral health services, pediatric health care, school attendance and engagement, and school-based mental health services.<sup>33</sup>

## Prior Congressional Action on FY2022 Full-Year Appropriations

Prior to the start of the fiscal year, the House took action on full-year LHHS appropriations. The House completed initial floor consideration of FY2022 LHHS appropriations on July 29, 2021, with the passage (219-208) of H.R. 4502. Those LHHS appropriations were packaged for the purposes of floor consideration with six other appropriations acts, with LHHS appropriations being in Division A of H.R. 4502.<sup>34</sup> Floor action was regulated by the terms of a special rule (H.Res. 555). A total of 56 amendments to the LHHS title of the bill were made in order for consideration on the floor.<sup>35</sup> This rule also provided the authority for the chair of the Appropriations Committee or her designee to offer any of the amendments made in order en bloc (i.e., in groups of amendments to be disposed of together).<sup>36</sup> All but two LHHS amendments were considered in this manner.<sup>37</sup> When counted as 56 separate amendments, 47 were adopted and 9 were rejected.

Previously, on July 15, 2021, the House Appropriations Committee voted (33-25) to report the LHHS bill; the measure was subsequently reported to the House on July 19 (H.R. 4502; H.Rept. 117-96). The measure was approved in subcommittee, via a voice vote, on July 12, 2021.

While the Senate Appropriations Committee did not vote to report its version of the legislation, the committee chair, Senator Leahy, released a majority draft of the LHHS bill and accompanying draft report language on October 18, 2021.<sup>38</sup> According to the chair, the purpose of this release was to further negotiations toward enacting all 12 annual appropriations bills prior to when the CR expired on December 3.<sup>39</sup>

---

<sup>33</sup> For further information, see CRS Insight IN11970, *Mental Health Funding in the Bipartisan Safer Communities Act*; and CRS In Focus IF12157, *Education Provisions in the Bipartisan Safer Communities Act*.

<sup>34</sup> Those appropriations acts were Agriculture and Rural Development, Energy and Water Development, Financial Services and General Government, Interior and Environment, Military Construction and Veterans Affairs, and Transportation and Housing and Urban Development.

<sup>35</sup> For a list of these LHHS amendments (numbered 1-56) and the text of each that was made in order, see pages 8-13 and 30-38 of H.Rept. 117-109.

<sup>36</sup> For further information about en bloc authority in the context of House floor consideration of appropriations measures, see CRS Report R46841, *Changes in the House of Representatives' Initial Consideration of Regular Appropriations Measures, 113th-116th Congresses*.

<sup>37</sup> For the en bloc amendments proposing changes to the LHHS division of the bill, see consideration of amendments en bloc nos. 1, 2, 3, and 4 in *Congressional Record*, daily edition, Vol. 167, No. 131 (July 27, 2021), pp. H4055-H4073.

<sup>38</sup> On October 25, Senator Patty Murray, Chair of the Senate Appropriations LHHS Subcommittee, introduced an FY2022 LHHS bill (S. 3062). This bill was referred to the Senate Appropriations Committee. Because S. 3062 has not received any congressional action, this report does not discuss this measure.

<sup>39</sup> The text of the Senate majority draft LHHS bill and accompanying committee report is linked to the press release, "Chairman Leahy Releases Remaining Nine Senate Appropriations Bills," October 18, 2021, <https://www.appropriations.senate.gov/news/majority/chairman-leahy-releases-remaining-nine-senate-appropriations->

## FY2021 and FY2022 LHHS Discretionary Funding Levels

**Table 1** displays the CBO estimate of enacted LHHS discretionary appropriations for FY2021 and FY2022, the House committee-reported FY2022 discretionary appropriations for LHHS, and those in the Senate majority draft proposal. The amount shown for “regular discretionary appropriations” does not include any funding that is subject to program integrity adjustments or emergency designations. The amount shown represents current-year budget authority subject to the spending limits and takes into account any applicable CBO scorekeeping adjustments. Under this method of estimating the bill, the House Committee proposal would have increased regular discretionary appropriations for LHHS relative to FY2021 by 36% (+\$63.4 billion), while the Senate majority draft proposal would have increased those appropriations by 27% (+46.7 billion).<sup>40</sup> Ultimately, the FY2022 enacted amount was an increase in such funding of 13% (+\$22.9 billion) relative to FY2021.

As mentioned previously, certain LHHS appropriations, such as those allowed for program integrity funding or designated for emergency requirements, are effectively exempt from the discretionary spending limits. As was the case for FY2021, FY2022 enacted (and the two proposals) provides the maximum amount allowed for program integrity spending under relevant procedures (see discussion in “FY2022 Discretionary Spending Levels and Appropriations Allocations”). With regard to new FY2022 funding for emergency requirements, \$7.8 billion has been enacted. The “adjusted appropriations” total in the table includes the additional program integrity and emergency-designated funds along with “regular discretionary appropriations.”

**Table 1. LHHS Discretionary Appropriations: Comparison of FY2022 Enacted with FY2022 House Appropriations Committee Bill, FY2022 Senate Majority Draft Bill, and FY2021 Enacted**

(Budget authority in billions of dollars)

	<b>FY2021 Enacted</b>	<b>FY2022 House Committee Bill (H.R. 4502)</b>	<b>FY2022 Senate Majority Draft Bill</b>	<b>FY2022 Enacted</b>
Regular discretionary appropriations	174.073	237.466	220.757	196.994
Adjustments:				
Health care fraud and abuse control	0.496	0.556	0.556	0.556
Continuing disability reviews and redeterminations	1.302	1.435	1.435	1.435
Reemployment services and eligibility assessments	0.083	0.133	0.133	0.133

bills. See also “Shelby: Democrats’ Partisan Bills Threaten FY22 Appropriations Process,” October 18, 2021, <https://www.appropriations.senate.gov/news/shelby-democrats-partisan-bills-threaten-fy22-appropriations-process>.

<sup>40</sup> The CRS estimates are based on a comparison of the CBO estimate for FY2021 enacted (CBO, *Report on the Status of Discretionary Appropriations, Fiscal Year 2021, House of Representatives, as of July 30, 2021*, <https://www.cbo.gov/system/files?file=2021-09/FY2021-House.pdf>) to the total amount of spending listed, respectively, on page 3 of H.Rept. 117-96 and page 1 of the Senate majority draft LHHS committee report (posted at <https://www.appropriations.senate.gov/news/majority/chairman-leahy-releases-remaining-nine-senate-appropriations-bills>). Other estimates may vary depending on source materials and methods used.

Emergency requirements	156.588	—	—	7.831
Adjusted appropriations	332.542	239.590	222.881	206.949

**Source:** The FY2021 enacted amounts are from CBO, *Report on the Status of Discretionary Appropriations, Fiscal Year 2021, House of Representatives, as of July 30, 2021*, <https://www.cbo.gov/system/files?file=2021-09/FY2021-House.pdf> and CRS analysis of Division H of P.L. 116-260. The FY2022 House amounts are from page 3 of H.Rept. 117-96, and CRS analysis of H.R. 4502, as reported. FY2022 Senate amounts are from page 1 of the Senate majority draft LHHS committee report and CRS analysis of the Senate majority draft LHHS bill posted at <https://www.appropriations.senate.gov/news/majority/chairman-leahy-releases-remaining-nine-senate-appropriations-bills>. P.L. 117-103. The FY2022 Enacted amounts are from CBO, *Report on the Status of Discretionary Appropriations, Fiscal Year 2022, House of Representatives, as of May 26, 2022*, <https://www.cbo.gov/system/files?file=2022-05/FY2022-House-2022-05-26.pdf>; CRS analysis of Division H of P.L. 117-103; and Table 3 in CBO, cost estimate, “The Bipartisan Safer Communities Act would provide funding to encourage enactment of state laws aimed at controlling access to guns and to support a variety of other initiatives to enhance school safety, mental health programs, and violence prevention,” June 22, 2022, <https://www.cbo.gov/system/files?file=2022-06/S2938.pdf>. “Regular discretionary appropriations” exclude funds for which special rules apply under the spending limits (e.g., funds for certain program integrity activities and emergency requirements), as well as funds provided under authorities in the 21<sup>st</sup> Century Cures Act (P.L. 114-255) that are effectively exempt from the spending limits.

**Notes:** Amounts reflect current-year discretionary budget authority subject to spending limits.
