# Finding Medicare Fee-For-Service (FFS) Payment System Rules: Schedules and Resources

The Medicare Fee-For-Service (FFS) program pays physicians, hospitals, and other health care facilities based on statutorily established payment systems, most of which are updated annually through regulations. Medicare FFS proposed and final rules follow schedules based on requirements found in statute, regulation, or both.

As Medicare FFS payment system proposed and final rules are issued, they impact payments received by health care facilities and providers. Congressional Members and committees may comment, and are often contacted by provider and beneficiary groups. Tracking the status and requirements for specific rules can be onerous, since they have different schedules and web locations.

This report contains information on these payment system rules in a quick reference table. Specifically, the table compiles the payment systems, their main portals on the Centers for Medicare & Medicaid Services (CMS) website, the typical rulemaking schedule, statutory and regulatory requirements, and the most recently issued proposed rules, public comments, final rules, and subsequent corrections. The table also includes embedded links to the applicable resources. Not all payment systems include detailed statutory and regulatory requirements, as noted in the table.

## Introduction

The Medicare Fee-For-Service (FFS) program pays physicians, hospitals, and other health care facilities based on statutorily established payment systems, most of which are updated annually through regulations. Medicare FFS proposed and final rules follow schedules based on requirements found in statute, regulation, or both. Medicare payment systems that follow annual regulatory updates with comment periods include the following:

- Medicare Physician Fee Schedule Payment (MPFS or PFS),
- Hospital Outpatient Prospective Payment System (OPPS),
- Ambulatory Surgical Center Payment System (ASC Payment System),
- Acute Inpatient Prospective Payment System (IPPS),
- Long-Term Care Hospital Prospective Payment System (LTCH PPS),
- Skilled Nursing Facility Prospective Payment System (SNF PPS),
- Inpatient Rehabilitation Facility Prospective Payment System (IRF PPS),
- Inpatient Psychiatric Facility Prospective Payment System (IPF PPS),
- Home Health Prospective Payment System (Home Health PPS),
- End Stage Renal Disease Prospective Payment System (ESRD PPS), and
- Hospice Wage Index and Payment Rate.

As Medicare FFS payment system proposed and final rules are issued, they impact payments received by health care facilities and providers. Congressional Members and committees may comment, and are often contacted by provider and beneficiary groups. Tracking the status and requirements for specific rules can be onerous, because they have different schedules and web locations. This report contains information on these payment system rules in a quick reference table.

To learn more about these payment systems, please see applicable sections of CRS Report R40425, *Medicare Primer*. In addition, the Medicare Payment Advisory Commission (MedPAC) produces *Payment Basics*,<sup>1</sup> a series of brief overviews of how Medicare's payment systems function.

## Medicare Fee-For-Service Payment System Rules: Schedules and Resources

Medicare FFS payment system rules and the associated statutory and regulatory requirements regarding timeline and public comment can be difficult to locate. **Table 1** compiles the payment systems; their main portals on the Centers for Medicare & Medicaid Services (CMS) website; the typical rulemaking schedule; statutory and regulatory requirements; and the most recently issued proposed and final rules, including agency docket numbers, *Federal Register* citations, public comments available on Regulations.gov, and any corrections issued. The table also includes embedded links to the applicable resources and notes when rulemaking timelines and comment periods are not specified. Not all payment systems include detailed statutory and regulatory requirements, as noted in the table.

**Source:** Compiled by the Congressional Research Service (CRS).

**Notes:** Table compiled using Centers for Medicare & Medicaid Services (CMS) websites, *Federal Register*, and Regulations.gov. In some cases, multiple payment systems are covered by one rule, so they are combined under one header and rule column, but include separate rows for their payment system name as well as the statutory and regulatory requirements. Typical months when proposed and final rules are issued can vary, and the months listed are based on CRS analysis of Federal Register publication dates from the past 10 years. Additionally, corrections are sometimes issued after the final rule.

- a. Some Medicare FFS payment systems are not updated through notice and comment or on an annual basis, but only periodically. These include Clinical Laboratory Fee Schedule, Shared Savings Program, and Ambulance Fee Schedule. Please see the embedded CMS links for more information, including the most recent rules.
- b. At times, regulations reference the Social Security Act rather than the *U.S. Code* citation. The Social Security Administration provides a cross-reference table at [https://www.ssa.gov/OP\\_Home/comp2/G-APP-H.html](https://www.ssa.gov/OP_Home/comp2/G-APP-H.html).
